No. 113 and 115 PINE St., SAN FRANCISCO.

Sole Proprietor of the

PATENT ENDLESS ROPEWAY

(Wire Tramway) for transporting Ores, etc., over mountainous places.

Agent for Pacific Wire & W. R. Manufacturing Co., of California.
AND OF

Rich'd Johnson & Nephew, Wire Manufacturers, of Manchester, Eng.

Mining Companies, Ferrymen, and Shipmasters

Are informed that Wire Rope can be furnished them considerably under the cost of hemp or Manila, of equal strength. Wire Rope does not stretch or shrink by change of weather. It weights 40 per cent, less than hemp; is less than one half the diameter; is easily spliced under all circumstances; is as pliable for equal strength; and is from four to five times as durable as the best Hemp or Manila Rope.

For Hoisting from deep Mines, the economy of its application is immense.

The Wire from which my Ropes are made is manufactured in San Francisco by the Pacific Wire Manufacturing Company, from the very best of Stock.

NOTE.—STEEL WIRE ROPE weights about six-tenths of Iron Rope, or one-third of Hemp of equal strength. Its extreme lightness saves largely in freight to remote places, and its great durability recommends it for hoisting purposes, etc. See table of comparative weights, strengths, and sizes of.

ENDLESS WIRE ROPEWAY,

(Wire Tramway) secured by numerous patents.

By means of the Ropeway, ores, rock, and other material can be transported over mountainous and difficult places, where it would be impossible or exceedingly expensive to build a road. It can deliver from five to fifty tons per hour, according to capacity; and being carried upon posts above snow and other obstructions, can be used when other modes of transportation would be impossible.

PREFATORY.

IN presenting to the public the Oakland Directory for 1874, the second volume of the work issued by the present compiler, he respectfully directs attention to the useful and interesting character of the different subjects embraced within its pages. The historical and statistical references comprise a mass of valuable information connected with the history of Oakland, including a statement of building improvements, and a review of the manufacturing enterprises since July, 1872. The articles on Land Titles, Population, and Finances are worthy of special attention. The Appendix contains the Charter of the City of Oakland, the Acts of the Legislature establishing the Board of Education and the Police Court, opening and improving the Public Streets, etc.; and the ordinances of the city with reference to Licences, Public Health, Nuisances, and City Wharf, with the different amendments to date, to which have been added abstracts of several important legal decisions affecting the same: the whole presenting a department of information concerning the laws of the City of Oakland, not to be found in any other publication. The Alameda division of the work contains, in addition to a list of residents, the Town Charter and a list of the officers of the local government; the officers of the different societies, churches, etc., and a variety of other interesting data of a local character.

The number of references contained in the Oakland Department of the present volume is 5,369, of which 4,561 are adult males. These figures, compared with those published in the Directory issued in August, 1872, 4,004 (Oakland 3,350, Brooklyn 654), exhibit an increase of 557, or about fourteen per cent. Population, January 1, 1874, estimated at 16,500. The number of references in the Alameda Directory is 358, of which 291 are adult males. The population of Alameda Township is estimated at about 2,000. Thorough and reliable statistics on these subjects will be found on page 26.

It was intended to include in the present volume, a map of the City of Oakland, but owing to the rapid growth of the city and the extension of its limits during the last year and the numerous changes incident thereto, it has been deemed advisable to omit the old map as being insufficient for present reference. A new map is now being compiled by official authority which will be published in the Directory for 1875.

The new system of numbering the buildings adopted during the past year, has greatly facilitated the labors of our canvassers, and will, when thoroughly carried into effect, prove a measure of great public convenience.

The compiler tenders his acknowledgments for the favors extended during the progress of his labors, to William D. Harwood, Esq., for valuable and interesting contributions to the Historical and General Review; to Dr. G. E. Sherman, for valuable mortuary statistics; and to the different officers of the City Government, especially to H. Hillebrand, Esq., City Clerk; to Captain F. B. Tarbett, and to Edward Hoskins, Esq., he is under obligations for valuable information: also, to the citizens of Oakland, for their uniform courtesy; and to the patrons of the work, for their substantial evidences of sympathy and good will.

HISTORICAL AND GENERAL REVIEW,

DECEMBER 1st, 1873.

Natural Advantages of Oakland, and her Progress.

The earlier residents of Oakland were induced to become dwellers here because the climate was superior to that on the western side of the Bay, and because the surroundings were in every way more beautiful and attractive. These are the great natural advantages operating in favor of Oakland, and from their character they must be perpetual. Oakland is a city of residences. The vast majority of her people are interested in business at the metropolis, but every part of California is represented in her population.

The establishment of the State University and the development of a perfect system of public schools in the city are next in importance to the natural advantage of climate and healthfulness.

This educational system is such that a child six years of age can enter at one of the primary schools and pass through the successive classes until fully qualified to enter the State University. The University itself is upon the borders of the city. Thus parents can obtain for their sons and daughters educational facilities now equal to any in the United States. The extensive knowledge of this fact tends to hasten the influx of population. The people of the city have done much to increase its attractions and are now putting forward well-directed efforts to give to the place a commercial importance of its own. The half-million dollars expended in street improvements have given miles of splendid driveways. The liberal spirit of the people in maintain-

ing a system of public schools, the best in the State, has been well rewarded. Large tracts of land have been rendered accessible by street railroads. A cheap and well-appointed ferry between Oakland and San Francisco has grown up as a natural result, and we now have accommodations that are somewhat in advance of the present demands of the city. There is half-hourly communication during the busier parts of the day, and hourly communication during the time when travel is lightest. The Central Pacific Railroad Company has done well with the people of Oakland. Its policy has been to accelerate the growth of the city and increase its prosperity. As the favorite place for residences, the position of Oakland was long since assured.

More than twenty years ago, there were people in Oakland who had deliberately formed the opinion that whenever the transcontinental railroad should be built, its western terminus would be in this city, and that the place would become one of great commercial importance. This idea has been continuously cherished, and the hopes of the most earnest friends of Oakland are likely to be realized. The terminus of the overland railway is fixed here. The pier extending to Goat Island is a perishable structure, that can be used only three or four years more, and attention has for some time been given to preparations for a change of business to this mainland. The improvement of the San Antonio Creek, as a harbor for the largest sea-going vessels, is sure to be made. The change that will take place upon the completion of that work must inevitably be great and important, and it must result in transferring to the east side of the Bay a very large amount of commerce, that will build up many branches of business now unknown here, and in a measure alter the character of the city and render it to a greater extent self-sustaining. While Nature has dealt very liberally with Oakland, the people have not been inactive. They have evinced a determination to do for themselves everything that is possible. A partial improvement of the harbor is now in progress, and it is expected that this will soon be followed with work ordered by the Federal Government.

The more prominent events of the year are the annexation of Brooklyn and the removal of the county seat from San Leandro to a point in East Oakland, somewhat more accessible. Brooklyn has always been virtually a part of Oakland, advancing as it advanced, and suffering from any causes that tended to retard the progress of Oakland. The contemplated harbor improvement will be of incalculable benefit to that part of the city, doing for it, comparatively, more than for the Oakland peninsula. It is the site of some of the more important manufacturing establishments now in operation. In annexing themselves to Oakland, the people of Brooklyn acted with prudence and forethought. The removal of the county seat from San Leandro has been of material convenience to the public, saving much time and trouble and rendering unnecessary a journey of nine miles in order to reach the seat of justice of the county.

NATURAL ADVANTAGES OF OAKLAND. 11

The city assessment rolls, from the fiscal year 1863-4 to date, have been as follows :

Year.	Amount of Assessment.
1863- 4	\$ 794,121
1864- 5	970,125
1865- 6	1,107,949
1866- 7	1,434,800
1867- 8	1,832,428
1868- 9	3,363,478
1869-70	4,256,702
1870- 1	4,563,737
1871- 2	5,215,704
1872- 3	6,647,039
1873- 4	18,539,303

Until the present year the assessment has been announced to have been at one-third of the actual value of the property ; but the custom has been changed, and property is now cited for what is deemed its market value. There has been a corresponding reduction in the rate of taxation—which is seventy cents on the one hundred dollars.

The city wharf was completed in August, 1872, and its first year's business amounted to \$3,283.67. Charges had been fixed so as to produce revenue enough to pay the interest on its cost and running expenses. It has done little more than this during the first year, and the amount of business has so greatly increased that at the end of the second year there will be a considerable sinking fund to redeem some of the bonds issued to raise funds for its construction. The freight landed on this wharf during the year amounted to 20,634 tons. The wharf is now used to very nearly its full capacity, and if the city owned the site for another, it would be justified in building a second one.

The erection of the Grand Central Hotel is an event of much local importance. In size and elegance it is not inferior to any hotel on the Pacific Coast, and visitors from different parts of the State, and from the East, will be sure to entertain a more favorable opinion of Oakland on account of this enterprise.

The Oakland Street Railroad Company has extended its track from Temascal to Berkeley, and a branch has been constructed from the main line, at the junction of Broadway and Fourteenth Street, along San Pablo Avenue, for a distance of two miles. The business of these roads has kept somewhat in advance of the general growth of the city, so large a proportion of the newly erected dwelling-houses being in the suburbs.

The Oakland Gaslight Company has increased the capacity of its works by erecting a holder which will contain ninety thousand cubic feet of gas, and by enlarging its works in other respects, in order to meet the increased demands made upon them.

The Contra Costa Water Company has lately commenced the

building of a dam on the San Leandro Creek, at a point about eight miles from the central part of Oakland. Very extensive purchases of real estate and water rights have been made, and when the work now in progress is completed, there will be an artificial lake covering 12,000 acres of land, and having an average depth of 100 feet. From the bar of the new dam to the company's pipes in East Oakland the distance is but six miles. The lake will have a capacity of forty thousand million gallons of water, and the stream flowing into it and the adjacent watersheds will enable the company to furnish one hundred million gallons daily. If these estimates by the company be correct, Oakland has within reach, at the lowest cost, a water supply that will be ample for all time.

Land Titles

ABSTRACT OF THE ORIGIN OF THE TITLE TO THE LAND ON WHICH THE CITY OF OAKLAND IS SITUATED.

During the first few years after the settlement of the city, it was the popular belief that the "Squatter Title" was valid, and most of the property was purchased from those who had originally taken possession. After the amount of litigation that is usually required to establish the legality of a Mexican grant, the Peralta title obtained recognition, and has withstood every attack subsequently made upon it. We append the outlines of an abstract of title to any city lot:

1. Grant from the Mexican Government to Luis Maria Peralta, of the "Rancho San Antonio," embracing the lands upon which the City of Oakland is located. Dated October 18th, 1822.
2. In 1842, Luis Maria Peralta made a division of the Rancho San Antonio among his four sons, Ignacio, Antonio, Domingo, and Vincente, and put them in possession of their respective portions. Vincente Peralta received that portion on which the City of Oakland is situated.

3. In 1851, Luis Maria Peralta executed an instrument purporting to be a will, wherein he ratified and confirmed the division of the Rancho San Antonio among his four sons, which instrument, the Supreme Court of California says, estops the heirs of Luis Maria Peralta from denying said gift to his sons. [See 17 Cal. Reps., *Adams v. Lansing*.] The invalidity of title derived from the other heirs than the sons of Luis Maria Peralta is also declared by the United States Supreme Court, in a case growing out of the "Pretermitted Heir" title, decided in the early part of this year (1872) and not yet reported.

4. In 1854, the Board of Land Commissioners confirmed the northern portion of the Rancho, embracing the City of Oakland, to Vincente and Domingo Peralta; and the same was afterwards, in 1855, confirmed by the United States District Court, and still later, at the December term in 1856, by the Supreme Court of the United States. (See 17 Howard.)

5. Ignacio, Antonio, and Domingo Peralta, to Vincente Peralta, release and deed all of their interest in and to that portion of the Rancho embracing the City of Oakland. Dated November 28, 1853. Recorded in Liber "8," of Deeds, Recorder's office, Alameda County.

6. Vincente Peralta to John Clar, (1-6); B. De La Barra, (1-12); Jos. K. Irving, ($\frac{1}{4}$); Jacob A. Cost, ($\frac{1}{4}$); John C. Hayes and John Caperton, ($\frac{1}{4}$). Deed dated March 13th, 1852. Recorded in Contra Costa County, in which Oakland was at that date situated.

7. John Clar to J. K. Irving, deed of his interest, February 7th, 1852. Recorded in Contra Costa County.

8. B. De La Barra, (1-12) deed to J. K. Irving, J. M. Goggin and William Claude Jones; William Claude Jones to Eugene Casserly; J. M. Goggin and Eugene Casserly to J. K. Irving, Hayes, Caperton, and heirs of Cost, deceased.

9. J. K. Irving, party of the first; John C. Hayes and John Caperton, parties of the second part; Anna R. Poole, Catherine S. Lyons and her husband, Joseph Lyons; Serena S. Young, and her husband, Alexander H. Young (heirs of Cost, deceased), "by William Poole, their attorney," execute a partition deed, duly proven, certified to and recorded in Alameda County.

10. Power of attorney from Anna R. Poole *et al.*, heirs of Cost, to Wm. J. Poole, June 14th, 1853.

11. Power of attorney to Montgomery Blair, from same parties (except Serena S. Young, who was deceased, and left minor heirs, for whom Alexander H. Young signed as guardian), Feb. 2d, 1854.

12. Proceedings in Probate Court in the same year, by which interest the minor heirs of Serena S. Young became vested in Alex. H. Young.

13. Another partition deed to correct errors in description of lands not blocked off in former deed, reciting and approving the former; the same in all other respects, between the same parties (except in place of Serena S. Young, deceased, was Alexander H. Young, "by M. Blair, their attorney in fact"). Dated May 1, 1854.

14. Deed from Anna R. Poole to John C. Hayes, ratifying and confirming the former deed of partition, and confirming the acts of Blair and Black as agents, Sept. 1st, 1858.

15. Similar deed to Hayes *et al.* from Jos. Lyons and wife, November 10th, 1858.

16. Similar deed to Hayes *et al.* from Alexander H. Young, March 27th, 1860.

Subsequent to the chain of conveyances traced, the title is vested in numerous owners, there being no other general claims. All the technicalities and defects which ingenuity can discover have been brought to notice. The numerous adverse titles had for years hung over property-holders like an incubus, and in the early part of the year 1869 the people began an organized movement to defeat them. The position of affairs was somewhat

critical. The city was rapidly growing, and to allow the idea to go abroad that titles were insecure would check the progress of the city and cause incalculable mischief. Sound business policy overcame the desire to make a bitter fight, however, and the holders of the claims were induced to dispose of them at rates that were trivial. The specific claims were the Pretermitted Heirs' title, the Sisters' title, the Irving title, and the Cost title, and these comprised all general titles asserted by anybody to land within the City of Oakland. These titles were, by their several owners, conveyed to Henry Hillebrand, the City Clerk, who acted as a Trustee, and by him conveyance was made to the several property-holders. Nearly all the land in the city is now held by a perfect title, the Hillebrand deed removing all the clouds. These titles, except the Cost title, still cloud property outside of the old charter line. The principal ones, the Sisters and the Pretermitted Heirs, are virtually defeated, and the property-holders, to save trouble and annoyance, have quite generally purchased the other claims.

The Kate Hayes Title covers that portion of Oakland township outside of the "Encinal Line," as laid down on our map. The Supreme Court of the State has sustained a decision rendered by E. W. McKinstry, Judge of the Twelfth District Court, granting a new trial on the motion made by the defendants (the property-holders). That decision was fatal to the claim, which, in itself, was but for a trifling interest. A new trial has not yet been had, and the result is regarded as a foregone conclusion, the law of the case having been decided beyond appeal.

Water and Gas.

About one-third of the population of Oakland use water obtained from the Contra Costa Water Company, and the remainder procure it from wells. By digging to a depth of twenty feet a supply of pure fresh water can be obtained; but on account of the increased size of the city, and the prevalent fear that well water is becoming contaminated with sewage, many persons are abandoning their wells and using the water that is obtained from the mountain streams. The Contra Costa Water Company commenced operations in the latter part of the year 1866, and since that time about fifty miles of pipe have been laid. Water is obtained from the Temascal Creek. At its eastern branch, five miles from Oakland, a cañon has been dammed, and an artificial lake, six hundred feet wide and three-quarters of a mile long, has been created. The water is seventy feet deep in winter, and the capacity of the reservoir is two hundred million gallons. The daily consumption of water varies from half a million to a million of gallons per day, according to the extent to which people may irrigate their gardens. The company has also appropriated the water of the Fruit Vale Creek and built a reservoir there, with a capacity of one million gallons. In case the mountain streams run low, use is made of artesian wells in

Brooklyn, the water from which is forced by steam power into the mains.

In view of a constantly increasing population and a rapid growth of permanent improvement, with a consequent increased demand, many have expressed a fear that the water supply would fail entirely, in the event of a dry season, and leave the city, in the more densely populated localities, where the well-water is not fit for use, on account of contamination by drainage, without water, and the whole at the mercy of the flames. Such a fear, it will be seen, is unfounded, for the company, in order to meet the increased demand, has acquired, by purchase, the water rights of San Leandro Creek to the upper end of the cañon, two miles above San Leandro. At that point a suitable dam is being erected, so as to form a lake of the valley above, which will contain, when completed, forty thousand million gallons of water, equal to a daily supply of one hundred million gallons, a quantity sufficient for the supply of a population of one million.

The location of this dam is about eight miles from Oakland, and it will be so far completed as to bring in the water for use in 1874, with an average pressure in the city of Oakland of two hundred feet.

The completion of this enterprise will give Oakland a first-class water supply, equal to the best in the United States.

The purity of the water supplied by the Contra Costa Water Company has lately been tested by the State Assayer, who certifies as follows: "I consider the water analyzed to be of excellent quality, and well adapted to domestic use."

The city is furnished illuminating gas by the Oakland Gas-light Company, which commenced operations January 1st, 1867. The city entered into a ten-year contract in 1868, to light the streets. The company receives 19 cents per night for each lamp. The annual amount of the bills for lighting the streets in the city is \$15,000. The company has laid about eighteen miles of mains. The works are located on the corner of Washington and First streets, and have a capacity of two hundred thousand cubic feet per day. The price charged to consumers is four dollars and fifty cents per thousand cubic feet.

The Railroad System.

It is broadly asserted that Oakland is the center of the railroad system of the Pacific Coast, and a mere glance at any railroad map shows that such is the case. The several lines of railroad in operation in California are either owned or controlled by the Central Pacific Railroad Company, and they all concentrate in this city. Words cannot convey this idea as forcibly as any railroad map and an accompanying table of distances. Not only the railroads now in existence, but those projected and likely to be completed within the next few years, converge to the same point. As San Francisco now is, and ever must be, the metrop-

olis of the Pacific Coast, the managers of railroads are compelled to locate their terminal improvements in Oakland, because they further their own interests by so doing. The Central Pacific Railroad Company owns seventy acres of land at the Oakland Point, used as a site for round-houses and work-shops. A planing-mill has been in operation upwards of one year, and in it is prepared all the timber used in the construction and repair of bridges on the line of the road. At the present time over 7,000,-000 feet of lumber and the materials for the construction of a large and commodious freight-boat, are on hand. The city has refrained from any attempt to open streets through this tract of land, at the request of the Company, upon representing that this ground is required for the purposes we have named, and in cutting it up by numerous streets its usefulness would be so impaired that it would be necessary for the Company to seek for accommodations elsewhere. The Company also owns an area of three hundred and fifty acres on the water front, extending from the former tract toward Goat Island, with a frontage of nearly half a mile on ship channel. The Company has recently made extensive purchases of real estate near the head of the San Antonio Creek, and it owns a large tract of hilly land a few miles south from Brooklyn, from which can be obtained an almost unlimited supply of earth for filling in and reclaiming marsh and tide lands. The wharf projecting from the Oakland Point is eleven thousand feet in length, and at the end of it there are twenty-six and one half feet of water at low tide, and thirty-three and one half feet of water at high tide, upon which have been erected extensive depots, railroad offices, warehouses, and ample facilities for the storage of grain, etc. The structure is built in the most firm and enduring manner, and nothing has been omitted that engineering and mechanical skill could suggest. The overland trains and the accommodation trains for San José, Sacramento, Stockton, and Marysville are run over the track laid through First Street, and the local trains are run over the Seventh Street track. Communication between San Francisco and Alameda is now maintained by a branch line of the Oakland road, which was completed on the first of October last. Its distance is about four miles, extending from Harrison and Seventh streets and crossing San Antonio Creek by a substantial bridge seven hundred and eighty-six feet in length, with a draw of two openings of eighty feet each. Ten trips are made daily. The Oakland Ferry service has been much improved by the discontinuance of the old route to Alameda. Twenty-five trips each way are now made daily, and, during business hours, one is made every thirty minutes. At Broadway and Brooklyn Stations, commodious accommodations have been provided for passengers, and at the latter a round-house for locomotives has been recently erected.

At the Central Pacific Railroad Company's Wharf, from June 30th, 1872, to June 30th, 1873, one hundred and ten vessels have received their cargoes of grain, aggregating 161,134 tons.

The street railroad system of Oakland is very comprehensive, all of the streets of present or prospective importance being covered by a franchise; but there are only two companies that have expended any money or shown any signs of vitality. The Oakland Railroad Company's franchise covers Broadway from the water front to the charter line, and thence by the most direct route to Berkeley. The road is built and provided with rolling stock. It is five and one half miles long. Thirteen one-horse cars run regularly, and, when occasion requires, six two-horse cars and six flats are added. Fifty-one horses are kept in the company's stable at Temescal. The San Pablo Avenue branch of the Oakland Railroad Company extends to a point near the Oakland Trotting Park, a distance of two miles. Three cars run regularly every fifteen minutes during the day.

The Oakland, Brooklyn, and Fruit Vale Railroad is completed from the crossing of Broadway and Seventh streets, in Oakland, to the central portion of the town of Brooklyn, a distance of two miles, and the business transacted is about sufficient to pay current expenses and interest on the investment. It is contemplated to extend this road to the County Court House, a distance of several blocks from its present terminus. Trips are made every half hour.

Some progress has been made in the construction of the Alameda and Piedmont Springs Railroad. The track has been laid a short distance from Alameda.

The street railroads projected promise to be remunerative enterprises. The benefit of such improvements is very great, a population of several hundred persons having been drawn to the vicinity of Temescal through the influence of the Oakland Railroad. As communication between different parts of the city is made convenient and cheap, its growth will be accelerated, and the value of real estate, in every locality, will be enhanced.

Rides, Drives, and Pleasure Resorts.

The smooth macadamized streets within the limits of the city afford many miles of pleasant driving, and if there were no other resort, Oakland would be unusually attractive. There is a network of well-made roads through the Oakland Valley centering at Berkeley. The Telegraph and San Pablo avenues are the great drive-ways to the north of the city, and from them radiate numerous roads that lead into the hills. A fashionable and beautiful drive is that leading to Piedmont Springs, five miles from Oakland. From the Piedmont Springs Hotel, which offers every attraction for the comfort and enjoyment of its patrons, "perhaps the finest and most complete view of the Bay and its surroundings is obtained, while the "Bushy Dell" hard by, a ravine filled with a luxuriant growth of shrubbery and trees, is a most delightful and romantic spot, with excellent made walks running through it. In this dell the Sulphur Springs are situated, the waters of which are strongly impregnated with sulphur, mag-

nesia, and iron. They have medicinal properties of great value. No place of resort can be more favorably recommended to the notice of our Eastern visitors, while the city man out of health will find them very conveniently situated." From Piedmont there are good roads running through the mountains, and there is a labyrinth of pleasant drives. The mountain scenery is very fine, and it is difficult to realize that so great a change can be found in a half-hour's ride from Oakland.

The drive-way on the eastern bank of Lake Merritt is also a fashionable resort. The system of roads in East Oakland is quite complete, and the visitor can follow any road that he may observe without danger of being led into an unpleasant or dangerous locality. The most important place of public resort, especially on Sundays, is Badger's Central Park, East Oakland, where there are highly ornamented grounds, a large pavilion for dancing, and all of the attractions ordinarily found at public gardens. That the excellent roads in and around Oakland are appreciated by visitors is attested by the fact that Oakland has six large livery stables, all of them doing a prosperous business.

Building Improvements.

The number of buildings erected in Oakland during the period July 1, 1872, to December 1, 1873, will bear a favorable comparison with that of previous years. East and West Oakland present very gratifying evidences of prosperity. One firm of contractors alone, Messrs. Power & Ough, estimate the amount of their engagements for the time referred to at \$500,000, included in which is the Grand Central Hotel, one of the most elegant and costly buildings in the city. It is a block in length, from Webster to Harrison streets, four stories high, and is covered with a Mansard roof, the only deviation from its prevailing style of Italian architecture. Three large towers embellish the structure, one at the center of the roof and one at each end. In each tower there is a tank, always kept full, containing 5,000 gallons of water. There are three front entrances, the main one in the center of the hotel, and the right and left half-way between the main entrance and the ends of the building. A porch extends from each entrance to the edge of the sidewalk, so that the guests may step from their carriages to the sidewalk, completely sheltered from the rain or the hot sun. The vestibule at the main entrance has a tessellated flooring of artificial marble. The ceiling rises eighteen feet in the clear. Laurel, oak, and walnut are represented in the graining, which has been executed with considerable care. Passing through a pair of swinging glass doors, the visitor enters the office at the right-hand side, whence he may ascend to the upper floor by the elevator. The reading-room and telegraph office are on the left-hand side of the vestibule, and can be reached directly from the street without passing through the hall.

Two flights of stairs from the street, one from the main hall and

one from the rear, communicate with the upper floors of the building. There are two main parlors on the second floor, with fine, large windows facing the street. A wide hall runs through the center of the building on all the floors. On this floor, on the other side of the hall, are the dining and breakfast saloons, connected with the hall by sliding doors. The sleeping rooms connected with the private parlors are so arranged as to be used either singly or in suites. The third floor contains suites and single rooms furnished in very good taste.

The building is about three hundred feet long, and from seventy to one hundred feet in depth. The rooms are all of good size, and well lighted and ventilated. The sleeping rooms are twelve and a half by fourteen feet; the private parlors are thirteen and a half by eighteen; the dining hall is twenty by one hundred feet, and the breakfast hall twenty-six by forty-eight. The tanks are connected with hydrants, from which hose extends to every part of the building.

The design of the building was planned by one of the owners, Dr. Samuel Merritt. The other proprietor is Captain P. S. Wilcox, of Oakland. The value of the building and the ground on which it stands is estimated at \$200,000.

CONVENT OF THE SACRED HEART.—The new building, although called an addition to the old convent, contains nearly four times the accommodations of the latter. Its dimensions are one hundred and seven feet, by a depth of seventy-two feet. The building is four stories, exclusive of a lofty attic. The basement, which is almost wholly above ground, contains a large gymnasium, measuring sixty by twenty-two feet, refectories, kitchen, and store-rooms. The principal floor is occupied by the parlors, museum, library, and large music hall. The story above is devoted to class-rooms and study-halls, and the upper floor is divided into dormitories and dressing-rooms. The building is heated by steam, and provided liberally with bath-rooms and all modern conveniences. From one hundred and fifty to two hundred pupils can be accommodated with ease, and that number will, in all probability, be made up before the close of the year.

The exterior of the building is somewhat Italian in its architecture. The floor lines are marked by ornamental string courses, and windows of an ornamental character, grouped together at the end and central projections, which relieve the front. The entire is surmounted by a bell-tower, consisting of two stories, and rising to a total height of nearly one hundred and ten feet to the top of the cross. The lower story is square, and decorated with Doric pilasters and a boldly projecting cornice. The upper story consists of an octagonal dome, supported by Corinthian columns, and surmounted by a ball and cross. The view from this observatory is magnificent, commanding the bay, the Golden Gate, Lake Merritt, and a wide stretch of the best cultivated and richest lands of Alameda. Indeed, it would be hard to find a finer site for an academy than that occupied by the Sisters, and

they have shown by their new edifice that its merits are not unappreciated by the Californian public. Bryan J. Clinch is the architect.

NEW COUNTY BUILDINGS.—The County Court House is located on the north-west corner of East Fourteenth Street and Twentieth Avenue. This building is constructed of wood; two stories in height; fifty-two feet front, by eighty feet deep; cost, \$8,000. The Hall of Records, located near the Court House, on Twentieth Avenue, is a one-story brick, fire-proof building, fifty feet front and sixty feet deep; cost, \$7,000. The County Jail buildings, on the south-west corner of East Fifteenth Street and Twenty-first Avenue, are constructed of stone, brick, and iron. The center building is three stories, forty by sixty feet, and will be used as the jailor's room, kitchen, and laundry. The jail-wing is two stories; forty by sixty feet, and contains forty cells. The plan of the buildings provides for an additional wing of two stories, forty by sixty feet, and to contain twenty-six cells. Total cost, \$50,000.

The Real Estate Associates have recently erected, on Eighth Street, near Broadway, a two-story brick and stone building, seventy-five feet front; the first floor being used for stores and the second for offices and lodging rooms. Cost, \$20,000.

Alfred Bartlett has erected, on Seventh Street, between Broadway and Washington, a three-story building, brick and Frear stone front, fifty by seventy-five feet, with stores on the ground floor, the upper part being known as the Bartlett House. Cost, about \$25,000.

L. G. Cole's residence on Webster Street, opposite the Convent, is three stories in height, costing about \$27,000.

J. Dickson's new residence, corner of Filbert and West Tenth streets, is three stories in height. Cost, \$18,000.

James Marshall's residence, on Webster Street, near Seventeenth, is two stories in height, having a frontage of forty-two feet. Cost, \$5,000.

Mrs. Caldwell's residence, on East Twelfth Street, is a two-story building, thirty-four feet front, costing \$6,000.

The City Market, on Twelfth Street between Broadway and Franklin, is a large and commodious one-story building, about sixty by two hundred feet, and is admirably adapted to the purposes for which it was constructed. It was completed and occupied in September, 1872.

Joseph Becht has recently erected, on Eleventh Street, near Broadway, a substantial brick store, fifty by seventy feet, one story in height; cost, \$5,500. The same enterprising gentleman has renovated and added extensive improvements to the building known as Pythian Hall, 1058 Broadway. The upper story will be occupied by the Knights of Pythias and other secret organizations of Oakland.

William Sohst has recently completed a substantial two-story frame building on the north-east corner of Eighth and Franklin streets. This building is fifty by seventy-five feet, and is de-

voted to the different branches of carriage and buggy manufacturing. Cost, \$4,000.

Captain Samuel James has just finished an extensive frame building on the north-west corner of Railroad Avenue and Wood Street, Oakland Point, known as James' Block. This building is about one hundred feet front by forty feet deep. The lower portion is occupied by stores and the second story is known as the Grand Western Hotel. Cost, about \$15,000.

Col. John Scott has lately erected a fine residence on the corner of West Eighth and Poplar streets.

Sheriff H. N. Morse has in the course of construction an elegant and conveniently arranged residence on the Watson Tract, near Lake Merritt. It is two stories in height, with a frontage of forty-two feet, and will cost about \$10,000.

A new school building on Twenty-eighth Street, near Telegraph Avenue, is nearly completed. It is two stories in height, with large and commodious rooms, each having sixteen-feet ceilings. Its frontage is one hundred and forty-eight feet, with a depth of sixty-five feet.

The Rev. David McClure, principal of the California Military Academy, is about completing two large three-story and three small frame buildings, to take the place of those destroyed by fire, September 20th, 1873. These additions will afford ample accommodation for the energetic teaching of the different branches of education acquired at this most excellent institution. Cost, \$22,000.

The improvements herein referred to are but a part of those erected in Oakland during the period named. In nearly every portion of the city may be observed buildings of an attractive appearance, completed during the present year, and occupied as residences, worth from one to three thousand dollars, which might be included in the list as additional evidences of the growing prosperity of the city.

Manufacturing Enterprises.

The advantages of Oakland, as a manufacturing center, are very great, and must, in due time, command attention. The city is connected with the general railroad system of the country, and is also accessible by water, so that goods can be exported by railroad or by sea-going vessels. The manufacturing establishments in Oakland are few in number, but the business transacted is quite respectable in volume.

THE PIONEER PLANING MILLS were started in the year 1863, and in March, 1868, were purchased by Blethen & Terry, the present owners. The business consists in the manufacture of sashes, doors, and blinds, and in furnishing such mill-work as is required in house-building. The mills are located on the south side of First Street, between Broadway and Washington streets, and contain the most valuable and serviceable machinery. The warehouse and offices are upon the opposite side of First Street.

THE OAKLAND PLANING MILLS were built by Burnham, Standford & Co., and have been in operation since February, 1869, the firm name remaining the same. The buildings, which are located on the corner of Washington and First streets, have been recently enlarged and improved, and contain all the machinery required in the manufacture of doors and sashes, house trimmings, etc. Adjoining the Oakland Planing Mills is Blair's stair-building shop, in which is prepared nearly all of the stair-building required in the city.

THE PACIFIC LUMBER AND MILL COMPANY is a corporation, having its principal place of business at Oakland Point. The capital stock is divided into five thousand five hundred shares, all of which have been issued—\$55 per share having been paid in, so that the capital invested amounts \$302,500. In addition to the land and buildings at Oakland Point, the company own three thousand acres of timber-land and a saw-mill in San Mateo County; a flume from this land to Pigeon Point, seven miles long, and a wharf and warehouse at the latter named place; also thirty-four hundred acres of timber-land and a saw-mill in Lake County. The company manufacture all kinds of house and mill work, and furnish lumber, railroad ties, posts, and cord wood at any point on the coast. J. W. Pearson, President and Treasurer; P. M. McLaren, Secretary and General Superintendent.

THE VENUS FLOURING MILLS are located on Third Street, south side, between Broadway and Franklin streets, and are owned by Carrick, Warner & Co. The mills contain two run of stones, and have a capacity of 100 barrels of flour per day. The line of the Central Pacific Railroad is but two blocks distant, so that the products of the San Joaquin Valley can be brought almost to the doors of the mill by rail. The proximity to the wharves is another advantage of the location, rendering it convenient to receive grain from the small vessels that navigate the Bay.

THE CLINTON FLOURING MILLS, located on the corner of East Eleventh Street and Twelfth Avenue, East Oakland, were erected in 1854. Weston & Welch are the proprietors. The mills contain six run of thirty-inch stones, and have a capacity of two hundred and twenty-five barrels per twenty-four hours. The engine by which the machinery is propelled is fifty horse-power. The firm manufacture flour, hominy, oat and corn meal, etc.

THE OAKLAND IRON WORKS, Ives, Scoville & Co. proprietors, are located on Second Street between Washington and Clay. This firm is engaged in the manufacture and repair of different kinds of machinery, and pattern and model making. They also manufacture the Climax Side Hill Plow, all steel and wrought iron, which they claim excels all others in lightness, strength, and durability.

THE SAN ANTONIO PIONEER POTTERY, Daniel Brannan proprietor, is located on the corner of East Twelfth Street and Seventeenth Avenue, East Oakland. This establishment has recently been enlarged to enable the proprietor to enter largely into the manu-

facture of his patent drain and water pipe, now being introduced in the market. In addition to this, he manufactures an extensive assortment of pottery of an excellent quality; also terra-cotta, of various designs and patterns, for ornamenting brick buildings.

THE BROOKLYN NEW POTTERY AND FIRE CLAY WORKS, Miller & Crabb proprietors, are located on the corner of East Twelfth Street and Nineteenth Avenue, East Oakland. This firm has recently commenced operations, and is preparing to enter extensively into the manufacture of terra-cotta flower-pots, etc. The clay used is obtained in the vicinity of the works, and is said to be of an excellent quality.

THE MANHATTAN MARBLE COMPANY of California commenced operations January, 1873, at the corner of First and Filbert streets. This company is engaged in the manufacture of mantels, tiles, furniture tops, etc., in imitation of the costly European marbles such as Sienna, Jasper, Malachite, and Lisbon. The articles manufactured are said to be unequalled in durability, beauty, and cheapness. Twelve men are constantly employed, who turn out about fifty or sixty mantels a month, besides other work.

CALIFORNIA JUTE MANUFACTURING COMPANY.—East side Second Avenue near East Tenth, East Oakland. Capital, \$200,000. M. Cerf, President; P. Susmann, Secretary. Manufactures grain sacks, wool sacks, potato sacks, burlaps, and twines, from jute, of which over 15,000 bales are imported yearly from Calcutta. The capacity of the Company's mill is about to be increased to 150 looms, capable of turning out five million sacks per year. To manufacture this quantity, employment will be given to at least five hundred men. This result has been reached within three years, the growth of the institution being unprecedented in the manufacturing enterprises on this coast. Beyond the importation of the raw material, everything is done on the premises—spinning, weaving, sewing, hydraulic pressing, etc., and nothing in the way of machinery is wanting to reach a perfect result in the operations of the company. This corporation has heretofore been known as the Oakland Cotton Mills, which was organized August 25, 1865, by W. H. Rector and his three sons. Originally, cotton goods were manufactured, but the machinery for that work has been sold to make room for the jute working.

PACIFIC JUTE COMPANY, incorporated August 16, 1873. Capital, \$1,000,000. This company has been incorporated with the view of ultimate consolidation with the California Jute Manufacturing Company, extensive improvements and additions to the factory at East Oakland being contemplated.

PACIFIC CORDAGE COMPANY.—The works of this company are located near Fruit Vale R. R. Station, Alameda County. The main building is two stories in height and one hundred and ninety feet wide by forty-five feet long. The rope-walk is twenty-six feet wide by eighteen hundred feet long. The machinery used is of the most improved character, with a capacity of ten thousand pounds per day of ten hours. Constant employment is afforded to nearly one hundred persons. The raw material used

in this establishment is obtained from Manila and St. Louis, and is known as the Manila and Kentucky hemp. The attention of those engaged in industrial pursuits is invited to the fact that this company could consume annually five hundred tons of the Kentucky hemp, if parties would cultivate it on this coast and furnish it even at an advance on Eastern prices.

In this connection, and with the view of employing white labor to as great an extent as possible, and to encourage the growth of the different fibres which enter into the manufacture in which they are engaged, the Company will pay a handsome premium for the first ten tons of hemp grown on this Coast, and, in addition, the Company, in due season, will furnish the seed gratis to any parties who will undertake its growth. At the present time the factory is working up to its full capacity, which, as stated before, is ten thousand pounds per day. The Managing Agent, Mr. J. D. FARWELL, assures the public that, outside of pecuniary considerations, he and the gentlemen with whom he is associated in this enterprise are determined to do all in their power to find permanent employment for poor white people, and they already contemplate engaging in other manufactures that will afford work to women and children in large numbers.

THE BROOKLYN TANNERY, Crist & Rued, proprietors, located on East Twelfth Street, between Twenty-first and Twenty-second avenues, East Oakland, is the largest in Alameda County. During the present year three buildings have been erected by this Company, which cover about one hundred by three hundred feet of ground. Operations were commenced July, 1873. The business consists in the manufacture of sole-leather, also harness and skirting leather. At present eight men are employed. The quantity of leather manufactured is about two thousand sides a month.

THE OAK GROVE TANNERY, A. C. Nichols and John S. Derby, proprietors. The business consists in the manufacture of harness, skirting, and sole-leather, the principal market for which is San Francisco. Six men find constant employment. The quantity of leather manufactured is about two hundred and forty sides a week. The tannery is located on the corner of East Twelfth and Eighteenth streets.

THE OAKLAND TANNERY, located on the Bay shore, about two miles north of the old charter line, is owned by Wm. Watts. The specialty is the manufacture of the finer kinds of calf-skin, for boots and shoes, and the principal market for which is in San Francisco.

BROOKLYN METALLURGICAL WORKS.—An establishment under this name is in process of erection at East Oakland, near the Jute Factory, for the reduction of gold, silver, copper, and lead ores, which will doubtless be extended to other purposes in the future. It is a private establishment, under the charge of Henry H. Eames, a practical chemist, and Russell D. Walbridge. These works will be in operation in a few weeks, but will not be running to their full capacity until some time during the year 1874.

OAKLAND SMELTING AND REFINING WORKS.—Extensive works for the reduction of ores are now being erected at Melrose, a station on the Central Pacific Railroad, a short distance from San Leandro, which, when completed, will afford increased facilities for those engaged in the development of this important branch of our resources.

LUSK'S MANUFACTORY OF PRESERVED FRUITS.—These works are located on Evoy Avenue, between San Pablo and Telegraph avenues. The principal building is one hundred and eighty feet in length, by seventy feet in width; and, in addition, there are several small structures for the different departments of the enterprise. Seven thousand cans of preserved assorted fruits are packed daily, and over one hundred and fifty persons are constantly employed. Three hundred and fifty acres of land are in cultivation, on which are raised nearly all the vegetables required in this establishment.

CARRIAGE MANUFACTORIES.—There are several establishments in Oakland engaged in the manufacture of carriages, buggies, and wagons, and a variety of articles connected therewith, the quality of which will favorably compare with those produced elsewhere. One of the most extensive is the Oakland Carriage Factory, M. W. Allen proprietor, located on the corner of Tenth and Franklin Streets. The Pioneer Factory of William Sohst, corner of Franklin and Eighth streets, is extensively engaged in the same line. The new and commodious building recently erected by this gentleman affords ample facilities for the economical and prompt dispatch of the various departments of his business. Northey & McGrath, 803 East Twelfth Street, are also engaged in the manufacture of carriages, buggies, wagons, and all kinds of agricultural implements.

In this connection may be mentioned the establishments of George A. King, 414 Eleventh Street; Wagar & Weymouth, 365 Eleventh; Henry Weeks, 314 East Eleventh, rear of Washington Hall; and McGrew & Hamilton, 1060 and 1064 Thirteenth Avenue, where carriage-making, repairing, and general blacksmithing is done in workmanlike manner.

WINDMILLS.—W. J. Tucker & Brother have recently opened an establishment on Second Street, near Washington, for the manufacture of Peck's Patent Windmill, an Eastern invention. The manufacturers claim that this is the only self-regulating, noiseless windmill in the country, and that, after a series of experiments, it is now brought to perfection.

THE FRUIT VALE QUARTZ COMPANY, whose quarries are located at Fruit Vale, are engaged in the business of laying sidewalks, carriage-drives, and garden-paths with white quartz. The company have an office at No. 923 Broadway, where any orders left will be promptly attended to.

THE PIONEER SODA WORKS, James I. Bliven & Co. proprietors, are located at 665 and 667 Broadway. These works supply Oakland and its vicinity with an excellent article of soda, the demand for which is constantly increasing.

Population, 1870, 1872, and 1873.

The Federal Census of 1870 placed the population of the township of Oakland at 11,104, divided as follows : Native, 6,940; foreign, 4,164 ; or white, 10,142 ; colored, 55; Chinese, 906; Indian, 1. Of this aggregate 10,500 are declared the population of the city, and the remainder, 600, represent the township outside the Charter Limits. No official classification of the sexes and ages has been as yet published, and it is therefore impossible to compare the above figures with the returns of the school census of 1871 and 1872 and the data collected during the progress of the canvass for the present volume. In 1869, the total number of children of 15 years and under, according to the school census, was 2,144 ; 1870, 2,628 ; 1871, 2,952 ; 1872, 3,761.

The increase of children from July, 1870, to July, 1872, according to these returns, is 1,133, from which should be deducted 300 (the estimated number added to the School Census from a part of Temescal), leaving 833, or thirty-two per cent. This rate must not be taken as an average for the entire population, from the fact that the element over twenty does not increase in the same ratio as those under that age.

The number of names on the poll-list for the present year is 2,800. The number of votes cast at the election, 1871 was: Oakland, 1,260 ; Point, 281 ; part of Temescal (recently included within the city limits), 165. Total, 1,706.

The following table has been compiled from the above and other reliable data collected during the progress of the canvass for the present volume. Attention is respectfully directed to the figures contained therein, and the aggregate derived therefrom:

Males over 21, names of residents in the present volume.	3,350
Females over 18, estimated	2,950
Males between 16 and 21, estimated	525
Males between 5 and 15, school census	1,163
Females between 16 and 18, estimated	200
Females between 5 and 15, school census	1,234
Males and females, of 5 years and under, school census,	1,344
Colored, Indians, etc., of all ages, estimated	70
Floating, names refused, and not obtained in canvass	275
Chinese, males and females	900

Total population City of Oakland, July 1st, 1872 . . . 12,011

This aggregate, after deducting therefrom 1,000 as the population of a part of Temescal recently added to the limits of the city, and compared with the returns of the Federal census of 1870 (10,500), shows a gain in two years of 511, or less than five per cent.; while the school census, which includes nearly forty per cent. of the population, shows a gain of 833, or thirty-two per cent. This discrepancy can be accounted for only upon the theory that a part of the township population residing outside

of the corporate limits was included in the returns of the city, or that the enumeration was absolutely inaccurate. This must be assumed, because the school census shows a regular and proportionate increase. It is taken annually by some competent citizen of Oakland, and as the amount of school money to be received from the State and County depends upon the number of children, there is the strongest motive to make the returns as large as the facts warrant.

In support of the assumption that residents of the outside districts were included in the returns of the city the fact is referred to that, at the general election in 1871, the precinct of Temescal returned 329 votes, which properly represent a population of 1974, by allowing one vote to each six of population, about the proportion of Alameda County, and the usual estimate for permanently settled agricultural districts ; but according to the returns of the Federal census, the population was only 604. That over one half of the population were voters is the conclusion to be drawn, and it is so obviously incorrect as to throw discredit upon the entire returns. If these deductions are correct, the population of the city of Oakland, August, 1870, was 9,130 and not 10,500, as reported by the Federal census.

By the authority of the City Council, a census of Oakland was taken in June of the present year, with the following results :

White population, males and females.....	14,165
Colored.....	205

The aggregate population of Oakland and Brooklyn, July 1, 1872, as published in the OAKLAND DIRECTORY for 1872, was estimated at 14,761, viz.: Oakland, 12,011; Brooklyn, 2,750. These

figures, as compared with the returns of the census of the present year, 15,387, are 626 less, or about four and one half per cent., a reasonable estimate for the increase during the twelve months between the dates of the respective estimates.

It is to be regretted that the published returns of the census of the present year do not exhibit a classification of the white element according to age, as the existence of such data would be useful for present reference, and valuable as a basis for future estimates.

Meteorological.

The only meteorological observations have been made by John Ross, of Oakland, and have been mainly confined to recording the rainfall, which has been as follows, for the years named:

	Inches.
1868-9.....	20 69-100
1869-70.....	19 58-100
1870-1.....	12 16-100

1872-3.....	16 42-100.

Real Estate.

From E. C. Sessions, Real Estate Dealer, we obtain the figures given below:

Total sales in the City of Oakland, from Nov.

1st, 1866, to July 1st, 1872.....\$12,496,843

Sales, foreign, ending July 1st, 1873 2,586,482

Sales from July 1st, 1873, to Oct. 13th, 1873,

(present date) 657,922

Total \$15,741,247

The above total represents the amount of all sales effected in Oakland City, from the time it commenced to assume importance and attract general attention throughout the State. During the year ending November 1, 1868, the sales amounted to \$29,83,719, but, with the exception of that year, the report for the year 1872-3 is the best on record. In 1868 the greater part of the real estate business was purely speculative. For three years there has been but very little speculation in city property; sales have been mainly to parties intending to improve and occupy the property. Prices are not greatly in excess of those prevailing three years ago. These facts indicate that the business has been healthy and legitimate, far better for the city than another season of speculation. The street railroads have brought into market hundreds of acres of land, and rendered it valuable for building purposes. The improvements outside of the old Encinal line have been extensive and valuable, but far the larger number of dwelling-houses have been erected in the central portion of the city, within a few moments' walk of the local railroad.

The number of births recorded for the year is 153 males ; 139 females ; total 292, showing a balance of 80 births over the deaths.

Estimating the population, December 31, 1870, at 10,000 ; December 31, 1871, at 11,000 ; and December 31, 1872 (including Brooklyn), at 15,000, give a mortality of 1 to every 82 of the population for the year 1870-71 ; 1 to every 102 for 1871-2 ; and 1 to every 71 for 1872-73. The number of births for the years 1871-2 is 179 ; and for 1872-3 is 292. The returns of 1871-2 show that deducting the number of deaths by accident, tubercular diseases, and those of children under five years (a large proportion of which generally result from negligence or ignorance), would give a yearly mortality of 1 in 216 for 1871-72.

Epidemic and endemic diseases are of rare occurrence ; inflammatory diseases are of a mild character.

Public Libraries.

In addition to the library connected with the University of California, which comprises 10,000 volumes, and several smaller collections belonging to educational institutions, there are in the city the Oakland and Odd Fellows' Libraries, each of which contains a valuable selection of works in the different departments of modern literature, to which additions of the new and standard publications of the day are made as rapidly as circumstances will permit. Arrangements are in progress to secure the organization of another library, under the auspices of the Masonic Fraternity, and from the character of those engaged in the movement there is but little doubt of its final success.

OAKLAND LIBRARY, corner Washington and Twelfth streets.—The Oakland Library Association was organized on the fifth day of March, 1868, by a meeting of the citizens of Oakland called for that purpose. The first officers (elected April 27, 1868) were: President, Samuel Merritt ; Vice-President, W. H. Glascock ; Treasurer, A. C. Henry; Recording Secretary, William C. Little; Corresponding Secretary, George Tait; Trustees: H. D. Bacon, E. Bigelow, G. W. Armes, H. C. Lee, G. C. Potter, E. C. Sessions, P. S. Wilcox, Joseph Gamble. Officers, September 20, 1873 : President, J. Preston Moore; Vice-President, E. R. Sill; Secretary, C. W. Kellogg; Treasurer, J. C. Quinn.

Directors: Mrs. Charles Palmer, Mrs. Prof. Carr, Martin Kellogg, Geo. W. Armes, Mrs. W. H. Raymond, Mrs. Geo. Potter, J. McChesney, F. W. Gill, W. W. Crane, Jr.

Librarian: Miss Lottie C. Willard.

The rooms of the association were originally located in Broadway Block, where they remained until September, 1871, when they were removed to the present location. The library was first opened to the public January 1, 1869. By the liberality of a few of the citizens of Oakland, the association was presented, in 1869, with a valuable lot on the corner of Washington and Twelfth streets, upon which has been recently erected a com-

modious library building, admirably adapted to the purposes to which it is dedicated, and an ornament to the gentlemen under whose fostering care the affairs of the institution have been conducted. Value of the building and lot, \$15,600.

The library contains over 3,500 volumes, exclusive of serial publications. Increase since February 19, 1873, 240 volumes. Twenty-two magazines and periodicals, and the leading newspapers of the day, are regularly received, and placed on file for the use of the members and their friends. Average number of volumes drawn per month is fifteen hundred, of which about sixty per cent. are works of fiction. Number of members, 350. Annual dues, \$6. Rooms open from 10 o'clock A.M. to 9 o'clock P.M.; closed from 1 to 2 o'clock P.M. daily.

ODD FELLOWS' LIBRARY.—Rooms, Odd Fellows' Hall. The Odd Fellows' Library Association was organized August 12, 1869. Officers, 1873, are : Board of Directors — C. J. Robinson, W. D. Harwood, Geo. E. Sherman, elected by University Lodge; J. E. Whitcher, N. B. Hoyt, P. J. Ipsen, elected by Fountain Lodge; W. S. Dryden, C. Barlow, John Barnett, elected by Oakland Lodge.

Officers.—President, J. E. Whitcher; Vice-President, N. B. Hoyt; Secretary, W. S. Dryden; Corresponding Secretary, W. D. Harwood; Treasurer, C. J. Robinson; Librarian, John Goss.

This library contains 1,700 volumes, of works well selected from the different departments of modern literature. Increase from July 1, 1871, to July 1, 1872, 240 volumes. A careful selection of the best periodicals and the leading newspapers of the day are regularly received and filed for the use of visitors. Increase of library during the past year, two hundred and seventy volumes. Number of volumes taken out during the same period, five thousand eight hundred and fifty. The library rooms are open from three to half-past five and from half-past six to half-past eight o'clock P.M., except during the summer, when the hours are six and seven to nine o'clock P.M.

Average monthly circulation, 487.

The Newspaper and Periodical Press of Oakland.

There are three daily and two weekly newspapers published in Oakland. The *News*, daily, now owned by Gagan & Fairchild, was started in November, 1863, and for five years was the only paper published in the city. It is prosperous and growing; Republican in politics, and has kept pace with the growth and improvement of Oakland. The *Transcript*, daily, was started April, 1868, and has changed ownership several times, the present proprietor being A. W. Bishop, who has succeeded John Scott, under whose management it has been conducted for several years. It is Republican in politics. The *Alameda County Gazette*, weekly, is also published by A. W. Bishop. The *Evening Torchlight*, published by Louis Dunand & Co., was commenced in November, 1872. It is Independent in politics. The *Oakland Home Journal*, weekly, was established by its present proprietor, William Halley, on the 9th of July, 1871, as the *Brooklyn Home Journal*. It has been since twice enlarged, and has a constantly increasing circulation. The *University Echo* is a monthly paper published under the auspices of the Durant Rhetorical Society, an organization composed of students of the State University. The *Oakland Monthly Review* is issued by John W. Ross & Co. The first number appeared in December, 1873. During the history of the city very many unsuccessful attempts have been made to found other periodicals, entailing the loss of a large amount of capital.

COUNTY INFIRMARY.

The County Infirmary is located on a tract of 127 acres of land near the San Lorenzo Creek, about five miles from the town of San Leandro.

The Infirmary is intended to answer the double purpose of a hospital and an almshouse, and suitable steps have been taken to secure the comfort of the patients. The County Board of Supervisors are *ex-officio* directors of the Infirmary. The buildings are inexpensive; the original cost of the main edifice—which is of wood—having been \$5,000. Numerous fruit trees have been planted, and the extensive grounds are cultivated by the convalescent patients and other inmates of the institution.

PUBLIC SCHOOLS.*

The past history and present condition of the public schools in the city of Oakland are detailed at considerable length in the carefully prepared report of the City Superintendent, Frederick M. Campbell, Esq., to the Board of Education, for the year ending June 30th, 1873. From this document we compile the following information concerning the public schools.

The first public school in the city was organized in July, 1853, with sixteen pupils. The teacher was Miss H. J. Jayne, sister of the present Police Judge, and now Mrs. Edson Adams. The building used was erected at a cost of one thousand dollars, and it is now occupied as an African Church, having been removed from its original location, at the corner of Clay and Fifth streets, to the corner of Market and Seventh streets. This building afforded all the public school accommodation of Oakland until the year 1862. In May, of that year, the block of land bounded by Twelfth, Eleventh, Jefferson, and Grove streets was purchased for nine hundred dollars: now worth, at least, forty thousand dollars. A small building was erected thereon, and school was opened in November of the same year. In August, 1865, the lot, 100 by 125, on the corner of Alice and Fifth streets, was purchased. The first grammar school was commenced in what is now the Lafayette Primary, in November, 1867. The Pres-

cott School-house, at Oakland Point, was the next building erected, and it was occupied, for the first time, on January 4th, 1869. In August of the same year, the primary school building, corner of Grove and Fifth streets, was formally occupied. The High School building, on the corner of Market and Twelfth streets, was dedicated September 17th, 1871. In twenty years the department has increased from one building, with sixteen pupils, to buildings containing near fifty rooms and over twenty-one hundred pupils.

There are one High school, four Grammar schools, six Primary schools, one Cosmopolitan school, and one ungraded school (Temescal). There are three classes in the High School, eighteen in the Grammar schools, twenty-eight in the Primary schools, two in the Cosmopolitan, and two mixed, making a total of fifty-three classes. Increase since last year, eighteen.

The average monthly enrollment is 2,088. The average number belonging to schools is 1,789. Average daily attendance, 1,692.

During the month of May, and the first week in June, 1872, were held the annual examinations for promotions. There were examined 1,263 pupils, of whom 737 were promoted.

In reference to the comparatively small number of promotions, the Superintendent says:

"Our department has grown very rapidly within the last year; families moving into our city from various portions of the State where the children have been necessarily deprived of the thorough drill in the lower grades, which the children living in cities, where there are graded schools, as in our own city, have. These pupils are almost invariably found to be unequal in their attainments—well advanced in some branches, and very deficient in others; so that while grading them correctly for some studies, it is often found to be too high for others. The examinations this year have also been more rigid than heretofore. Yet, while they were difficult, they were not unjust. The Superintendent is confident the results will be fully up to those attained in the San Francisco schools."

Vocal music is taught in all of the classes by their respective teachers.

Under the instructions of Mrs. A. W. Brodt, the classes have made good progress in the study of drawing.

The Cosmopolitan School was started in 1870 as an experiment, with twenty pupils, and the services of Professor A. D. A. Champion were secured as teacher. The exercises are conducted in the French language, and the pupils show remarkable proficiency in their studies.

UNIVERSITY OF CALIFORNIA.

The State Constitution requires that the Legislature shall maintain a university, but only a technical obedience was given to this section of the fundamental law of the State until the year 1863, when the Legislature passed a concurrent resolution accepting the donation of lands tendered to the State by Congress, for the endowment of a College of Agriculture and Mechanic Arts. In March, 1866, the Legislature passed an Act to establish an "Agricultural, Mining and Mechanical Arts College." The directors specified in that Act, decided that the proposed college should be located in Alameda County, but did not designate the part in which it should be located. The College of California owned a tract of one hundred and sixty acres of land at Berkely, five miles from Oakland, and in August, 1867, the Trustees passed a series of resolutions, proposing to donate this property to the University, and offering to give its entire assets to the State institution, provided the State should forthwith occupy the property, and organize and put into operation a University of California, which should include a college of Mines, of Agriculture, and an Academical College—all of the same grade, and with courses of instruction equal to those of Eastern colleges. The Directors of the Agricultural College accepted the offer, and received a conveyance of the property at Berkeley. In March, 1868, the Legislature passed the Act incorporating the State University, under which its affairs have ever since been

conducted. The control of the institution is placed in the hands of the Board of Regents, constituted as follows:

The University consists of five distinct and independent colleges, viz.: Four colleges of Arts, and one college of Letters, as follows:

1. A State College of Agriculture. 2. A State College of Mechanic Arts. 3. A State College of Mines. 4. A State College of Civil Engineering. 5. A State College of Letters.	} <i>Colleges of Arts.</i>
--	----------------------------

The full course of Instruction in each college embraces all appropriate studies, and continues for at least four years.

The University possesses apparatus procured from Europe, valued at \$30,000, for the use of the chemical and other scientific experiments. The student are organized into four military companies, under the State law, and are drilled twice each week. Professor Welcker and Professor Soulé, graduates from West Point, have charge of the military instruction of the pupils. The exercises are conducted in the elegant and spacious new buildings erected by the State at Berkeley. The State owns the four blocks of land between Twelfth, Fourteenth, Franklin, and Harrison streets, in Oakland. Provision is made by law for five scholarships, of \$300 per annum each, to be given to members entering the fourth class, after a competitive examination.

The Legislature, at the session of 1871-2, passed Acts appropriating \$6,000 per month for the pay of professors and tutors, and \$300,000 for the building fund. The original endowments of the University were valued at \$420,000—without including 150,000 acres of land, but a small part of which has been located. An abundant supply of water has been introduced throughout the buildings and grounds of the University. When all the improvements projected are completed, the University site will become one of the most attractive spots in the State.

The number of students, as given by the Secretary in his report to the Legislature, in December, 1873, was 199.

The number of volumes in the library, 10,000; cost of buildings and improvements at Berkeley, \$350,000.

INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

This institution, situated at the base of the foot-hills, four and a half miles north of Oakland, and in immediate proximity to the State University, was originally located in San Francisco. It was started—and for some time sustained—through the exertions of the benevolent women of that city. The school was opened April 30, 1860, with three pupils. As the institution grew in numbers, State aid was obtained, and 1865, it had increased to such a degree as to justify its entire organization under State auspices.

A law was passed March 3, 1866, "providing for a removal of the school from the limited and inconvenient quarters in San Francisco"—for enlarging the scope of its beneficence—for vesting in the State the title to all property held by the institution, and providing for a Board of Directors, under the Code appointed by the Governor. Suitable appropriations were made to carry out the purpose of the Act.

After long and patient examinations, the Commissioners decided upon the present location. Plans—drawn by Messrs. Wright & Sanders, of San Francisco—were adopted, and the buildings now occupied were erected.

The ground was broken June 29, 1867, and the corner-stone was laid September 26, of the same year, and the new building was occupied for school purposes October 20, 1869.

The institution is built of stone—is three stories in height—having a total frontage of 264 feet, a depth of 140 feet, and the height to the top of the spire is 160 feet. It is admirably planned for the purpose of such an establishment.

The whole cost of building, grounds, shops, heating apparatus, laundry, and the furniture, has been about \$180,000. The institution has a present capacity for about 150. During the year 1872-3, 112 persons received instruction.

The benefits of the institution are free to all resident deaf and dumb, or blind, persons, between the ages of six and twenty-five, who are of sound mind, free from contagious or offensive diseases, and of correct moral habits.

It is not an *asylum*, in any sense of the term, as its inmates are received only for purposes of education.

The names of the Board of Directors are:

J. MORA MOSS, President.

JOHN C. HAYS, Vice-President.

T. L. BARKER, Auditor.

ERWIN J. CRANE.

H. A. PALMER, Secretary and Treasurer.

The Principal, to whom all letters of inquiry should be addressed, is Warring Wilkinson, M.A., assisted by the following corps of teachers:

Geo. B. Goodall.

C. T. Wilkinson.

F. P. Fowler.

Miss Annie Comly.

Henry Frank.

The institution is open to visitors on all days except Saturday and Sunday.

PRIVATE EDUCATIONAL INSTITUTIONS.

CALIFORNIA MILITARY ACADEMY.

This military institution, opened January 9, 1865, is the first of the kind that has been established on this coast. Rev. D. McClure is the proprietor and principal. The academic staff is composed of nine experienced teachers.

In the academic department, well-defined and extensive courses of study are pursued in the English branches, ancient and modern languages, natural science, mathematics, and commercial knowledge—such as will prepare students for college or business. The institution is also organized as a military post, and it is obligatory upon every student to attend the daily military drill, and perform the duties of a cadet—which do not interfere with the hours of study. There were 176 students in attendance during the last year.

LOCATION.—The location, on Telegraph Avenue, near Prospect Avenue, is one that affords the cadets a scene of rare beauty. From the rise of the ground upon which the buildings are situated, an extensive view is had of Oakland and the surrounding valleys, of the Bay and City of San Francisco, and of the Ocean through the Golden Gate. The Academy may be reached by the Telegraph Avenue cars.

BUILDINGS.—In location, style, and general adaptation to the purposes of education, they are unsurpassed by any similar institution in the State. Every care has been taken to secure the best arrangements for the comfort, health, and refinement of the cadets. Two large three-story buildings, and three small ones, have been erected in the place of those destroyed by fire on the evening of September 20, 1873, at a cost of \$22,000, which afford ample room for school purposes, and for in-door recreation and drill during stormy weather.

DESIGN OF THE INSTITUTION.—It is the fixed purpose of the principal, and those associated with him, to render the institution an efficient instrument for the symmetrical development and dis-

cipline of the mind, and the formation of a good physical constitution. Ease and grace of manners, kindness and courtesy in social intercourse, are matters of constant oversight. That education is more anxiously sought for the pupils, which has special reference to the best practical preparations for the duties of this life, and also to that moral and religious culture which will fit them for the life to come.

MILITARY.—The military system of drilling and discipline has been adapted to secure physical culture, promptness, decision of movement, erect carriage, submission to constituted authority, presence of mind, ability to govern, and the repression of the tendency to rudeness, natural to an assembly of boys. This department is thoroughly organized, affording an opportunity for obtaining a complete knowledge of the duties of the soldier and the officer. The full routine of a Military Post is constantly observed, with its Headquarters, Quartermaster, Commissary, and the other Departments. It is obligatory upon every cadet to attend the daily military exercises as a regular part of the Academic Course. Physical deformity and sickness are the only grounds of excuse.

The Academy is furnished with muskets and equipments suitable for the use of cadets, and a large armory for in-door and bayonet exercises.

The Company, Battalion, and Skirmish Drills are conducted according to Upton's Tactics.

The real object of military discipline is not to make soldiers only of the students, but to give them strength of body, vigor of constitution, and manliness of bearing; to fit them not merely for the field of battle, but for all employments and departments of life which demand vigor, energy, and endurance. The effects of the regular, daily, systematic drill under competent officers, in restoring to health and strength delicate, dyspeptic, and debilitated youths would be alone sufficient to assure us of its high utility. The promptness, accuracy, and general habits of order and precision to which cadets are trained, together with the steady cultivation of fidelity, honesty, and courtesy, as essential to military excellence, have also been found of incalculable value in fitting them for all professional and business pursuits.

The military drill *does not encroach upon study hours*, but occupies time usually given to recreation, which is often worse than wasted by students.

The Legislatare of the State of California passed an Act, February 20, 1872, in which provision is made:

1. To commission the Commandant of this Academy as Major in the National Guard of California, and—
2. To furnish the cadets with arms and accouterments.

UNIFORM.—The “fatigue” coat is a close-fitting gray cloth jacket, with black trimmings. The “dress” suit is a gray cloth frock coat, with black cloth cuffs, collar, and shoulder-piece extending from the seam of the collar to the end of the shoulder.

Cadets are required to wear the uniform during the term time, except when visiting their homes—then it is optional.

PASSES.—No cadet is permitted to leave the Academy grounds unaccompanied by one of the Academic Staff, unless he has obtained a pass, stating the place to which he is going, the hour of departure, and the time he is required to return. A violation of this pass, in any respect, is considered a breach of confidence, and deprives the cadet of a pass for a length of time depending upon the circumstances of the case.

CADET OFFICERS.—The appointment of every cadet officer of the corps is made by the Superintendent, and is based upon his qualifications as a student and a soldier. He must have a high standing in the following particulars:

1. Deportment and Academic scholarship.
2. Theoretical and practical military knowledge.
3. Natural ability to command.

This basis of appointment has been in operation during the present year. Previous appointments were made more with reference to military knowledge than deportment, and did not, therefore, represent the most distinguished scholars and soldiers, as is the case with the present appointments.

In the choice of officers, preference is given to members of the first and second classes in the Academic Department.

GRADUATION.—Cadets who have honorably completed the Academic Course of Study will receive a certificate of graduation at the close of the academic year.

MILLS' SEMINARY.

The Young Ladies' Seminary of Benicia was founded in 1857, and after various vicissitudes of fortune, became the private property of Rev. C. T. Mills, in 1865. Under his control, the school became exceedingly prosperous, and the old and inferior buildings were no longer serviceable. It was decided to remove the seminary to a tract of land near Fruit Vale, in Brooklyn Township, and in June, 1870, work was commenced upon the new building. On April 8, 1871, the structure was completed, and accepted from the contractor. From one of the circulars issued, we copy the following description:

"The building is an imposing structure, presenting a front of two hundred and eighteen feet, with a wing of one hundred and thirty feet, and is two stories in height, surmounted by a Mansard roof. The outline is well broken; the center and end wings project well forward; the main building, somewhat higher than the wings, is surmounted by a cupola, from which there is a splendid view of the surrounding country. The great size of the structure, its fine proportions and details, give it an air of solidity, as well as an inviting and home-like look.

THOMAS HOUSEWORTH & CO., Opticians, 9 Montgomery Street, under Lick House, S. F.

"The seminary is intended to accommodate about one hundred and ninety-five pupils. On the main floor are parlors, reading-room, library, and recitation-rooms. In the east wing are two very large school rooms, besides a parlor, several rooms for recitations, music, and the various purposes of the seminary. In the west wing are the apartments of the principals; adjoining them is a suite of rooms intended for use in case of sickness. The upper stories are devoted to sleeping apartments. Each room—arranged for two pupils—has a toilet apartment off from it, with stationary wash-bowl, and each room is lighted with gas. The bath-rooms, etc., are ample and complete. Every room is frescoed neatly and handsomely; those of the first story, the parlors, reception, and school-rooms, dining-hall, and music-rooms being very elaborately decorated, making them remarkably attractive and cheerful. The dining-hall, a fine room thirty-six by seventy feet, and the kitchen, are connected with the main building by a corridor, and the laundry, servants' room, etc., are apart from the main building. The halls are very spacious, and stairways numerous and ample, special pains to secure safety in that particular, in case of fire, having been taken. Fire-extinguishers of the most approved kind have been procured, and placed in proper position in the building. Under the building is a fine, large cellar. Every effort has been made to secure light, proper ventilation, and sunshine. The entire building is warmed by steam and lighted with gas made on the premises. Inside blinds have been provided for the windows."

An Art-room has been recently added to the building. Rev. C. T. Mills is Principal, and Mrs. S. L. Mills, Associate Principal. They are aided by a corps of twenty-three teachers.

The attendance for the year ending May, 1873, in the several departments, was as follows:

Senior class	19
Senior middle class	20
Junior middle class	35
Junior	63
Preparatory	131
<hr/>	
Whole number of students	268

In the annual catalogue for 1873, the proprietor says:

"Though the Mills' Seminary, for the present, is private property, the hope and purpose is to make it a permanent institution. It is the desire of the proprietor, as well as those who have so generously aided him in the work, that it shall be so arranged—and eventually so endowed—that, like Mt. Holyoke, or Vassar, it shall be self-perpetuating. The hope is, that, adding to its resources and appliances until it shall become, in every respect, all that can be desired, and depending upon no individual life, it shall continue to be a fountain of knowledge and a blessed influence long after those who have aided in the enterprise have finished their work on earth."

The next term of the seminary will commence January 7, 1874.

PACIFIC THEOLOGICAL SEMINARY.

The Pacific Theological Seminary was founded in 1869, in San Francisco. The buildings erected by the Female College of the Pacific, on Academy Hill, were purchased by the Seminary, and possession taken in June, 1871, at which time the regular exercises of this seminary were commenced. The value of the property is \$70,000. Last year there were seven students in the regular classes. Three young men graduated in May, 1872.

The Trustees of the seminary are as follows:

Rev. A. L. Stone, D.D.	Dea. L. B. Benchley.
Rev. I. E. Dwinell, D.D.	Dea. T. B. Bigelow.
Rev. J. A. Benton, D.D.	Dea. E. P. Flint.
Rev. J. K. McLean.	S. S. Smith, M.D.
Rev. W. C. Pond.	J. M. Haven, Esq.
Rev. C. H. Pope.	W. N. Hawley, Esq.

Rev. A. L. STONE, D.D..... *President of the Board.*

Rev. J. K. MCLEAN *Secretary of the Board.*

Dea. L. B. BENCHLEY..... *Treasurer of the Board.*

There is a visiting committee, composed of the following persons:

Rev. Eli Corwin.	Rev. T. H. Rouse.
S. S. Smith.	Wm. K. Rowell.

The regular course of study extends over three years, but there are courses adapted to two years, or to one year. The seminary is under the auspices of the Congregational Church, but the course of study is not biased in favor of that denomination, some of the students belonging to other churches. Rev. J. A. Benton, D.D., is Professor of Sacred Literature, and Rev. George Mooar, D.D., is Professor of Theology.

The year consists of but one term. It begins with the third Thursday in August, and ends with the fourth Thursday in May. There will be a recess from the 20th of December to the 3d of January.

Credible evidence of piety, membership in some Evangelical Christian Church, a collegiate education, or such other literary and scientific attainments as promise a fair degree of usefulness, will entitle all young men to the advantages of this seminary.

Relative to expenses, the Trustees have the following in their circular:

"There will be no charge for tuition, rent of rooms, or use of furniture. The Trustees will, so far as practicable, furnish textbooks and reference books free to those who are in need; themselves being the judges of the necessity. Those who are so disposed can live very economically in Oakland or San Francisco. It is thought that one dollar a day will meet all the absolutely necessary expenses of an economical person; fifty per cent. more

could be used to advantage; a hundred per cent. more would not be deemed very extravagant.

"The American Education Society will render aid to the pupils of this seminary who are especially needy, and who take the full course of three years. The amount bestowed will be \$80 or \$100 a year (in currency) to each beneficiary."

GOLDEN GATE ACADEMY.

This academy is a school for boys, and is located at the Pacific Theological Seminary. G. J. Gamwell is Principal. Number of pupils, 64. All pupils must board at the school, and the circular announces that:

"It is the aim of the Faculty to furnish, as near as may be, an equivalent for the well-regulated Christian fireside. In this endeavor, they receive most valued aid from Professor Mooar and family, who live in the building."

CONVENT OF OUR LADY OF THE SACRED HEART.

This institution is for the education of girls, and is located on Webster Street near the head of Lake Merritt. It was dedicated in 1868. The teachers are "Sisters of the Holy Name of Jesus and Mary," who came from Canada for the purpose of acting as instructors in this school. The funds for purchasing the grounds and erecting the buildings were raised through the personal exertions of Rev. Father King, of the Church of the Immaculate Conception (formerly St. Mary's Catholic Church). The curriculum of studies resembles that of other schools for the education of young ladies. The new building recently erected will afford all the accommodations necessary to meet the growing wants of this flourishing institution.

ST. JOSEPH'S ACADEMY.

This academy is located on the corner of Jackson and Fifth streets, and is conducted by the "Christian Brothers," Brother Pirmian acting as Principal. It was opened July 5, 1870, and is a prosperous and well managed school for the education of boys. Number of pupils, 80.

PRIVATE SCHOOLS.

Mrs. E. C. Poston's Seminary for Young Ladies, is located on Oak Street near Eleventh. This institution was removed from Marysville in February, 1873. The location of the seminary is

retired, the grounds are spacious and pleasantly shaded, thus securing every opportunity for healthful exercises as well as the quiet and seclusion so necessary for the successful prosecution of study. The number of pupils is limited, and the arrangements of the household are such that every pupil is under the direct control and influence of the Principal. They form no acquaintance except with her approbation, and mingle in society only under her supervision. Number of pupils receiving instruction at the present time, 53.

Madames Braun and Harrison have established a seminary for young ladies at No. 264 Eleventh Street. The number of pupils is limited to 30.

The Oakland College, Professor C. C. Blohm, Principal, is located on the south-west corner of Harrison and Sixth streets. This is a day and boarding school for boys.

Mrs. H. N. Field's Oakland Home School for Young Ladies, is located on Hobart Street near Telegraph Avenue. All the different branches of a first-class English education, together with the modern languages, are taught by a corps of competent teachers.

There are several other seminaries and smaller schools taught in parlors, located in various parts of the city, which are worthy of special mention, did space permit.

WHEN ISSUED AND THE AUTHORITY THEREFOR.

BONDS OF 1858.—Amount outstanding, \$18,400. This issue was authorized by Act of the Legislature, approved April 26, 1858, which provides for the funding of the legal indebtedness outstanding on the first day of May, 1858, not previously funded, and for the exchange of any unredeemed bonds issued under the Act of April 30, 1855. These bonds have twenty years to run, and bear interest at seven per cent. per annum, payable semi-annually, January and July. Provision is made for the interest by an annual tax on the assessable property of the city; and for the payment of the principal an additional tax, equal to one half of the amount then outstanding, is authorized to be levied in each of the years 1876 and 1877.

For Fire Insurance in strong Companies, apply to BAKER & ROFF, Agents, Broadway and Tenth, Oakland.

SCHOOL BONDS, 1868 (Amount, \$50,000).—Authorized by Act March 13, 1868. These bonds are redeemable at any time within ten years, and bear interest at ten per cent., payable annually in January. For the payment of the interest an annual tax is authorized, and for the redemption of the principal, an additional tax, not to exceed ten cents on each one hundred dollars of the assessable property of the city, may be levied, and the amount derived therefrom shall constitute a Redemption Fund. Whenever the Fund amounts to one thousand dollars or more, it shall be appropriated to the liquidation of the bonds at the lowest rates (not more than par value) offered by the holders thereof. Should a balance remain, it shall be appropriated to the liquidation of bonds in the order of their issue, which, if not presented after due notice, the interest thereon shall cease. In each of the years 1875 and 1877, a tax is authorized, sufficient to pay one half of the amount then outstanding.

CITY HALL BONDS, 1868 (Amount, \$50,000).—Authorized by Act March 19, 1868. Redeemable at any time within fifteen years, and bear ten per cent. interest, payable annually in January. JUDGMENT BONDS, 1868 (Amount, \$16,000).—Authorized by Act of March 28, 1868. Issued to E. R. Carpentier in satisfaction of a judgment against the city. Redeemable at any time within ten years, and bearing ten per cent. interest, payable quarterly in January, April, July, and October. BONDS 1870 (To pay certain claims—Amount, \$70,000).—Authorized by Act of March 24, 1870. Redeemable in twenty years, and bearing ten per cent. interest per annum, payable in January and July. Whenever this fund, after the payment of the annual interest, shall amount to two thousand dollars, it shall be appropriated to the liquidation of these

bonds at the lowest rates (not more than par value) offered by the holders thereof. In the event of this fund not being exhausted, after a stated time the balance shall be appropriated to the payment, at par, of the bonds in the order of their issue, which, if not presented after due notice, the funds for the payment of the same shall remain in the treasury, and the interest thereon cease from that date.

SCHOOL BONDS, 1872 (Authorized by Act March 18, 1872. Amount, \$50,000).—Redeemable in twenty years, and bearing eight per cent. interest, payable in January, April, July, and October. For the payment of the interest a property tax is authorized, and for the liquidation of the principal, a ten per cent. tax is provided for, to commence ten years from the issuance of the bonds, the amount from which shall constitute a Redemption Fund. When this fund amounts to one thousand dollars or more, it shall be appropriated to the liquidation of the bonds at the lowest rates offered, (not above par). Should there not be a sufficient amount of bonds offered to exhaust this fund, the Council may again advertise as before. All moneys remaining in this fund, together with a property tax to be levied in 1891, sufficient to pay the balance of the principal unpaid, shall constitute the final Redemption Fund.

BONDS, 1872 (For municipal purposes—Authorized by Act March 27, 1872; amount, \$80,000).—Redeemable in thirty years, and bearing eight per cent. interest, payable in January, April, July, and October, commencing with October, 1872. For the payment of the interest, an annual property tax is authorized, and for the payment of the principal, an additional property tax, to commence in 1893, is provided for, of ten per cent. on each one hundred dollars, to create a fund for the redemption thereof. On the 1st of February, 1893, and annually thereafter, when there are more than two thousand dollars over the amount sufficient to pay the interest due on the following April and July, it shall be appropriated to the liquidation of the bonds at the lowest rates offered (not above par). If the amount be not exhausted after a stated time, the balance shall be appropriated to the payment, at par, of the bonds in the order of their issue, which if not presented after due notice, interest thereon shall cease.

OAKLAND BAR BONDS.—By an Act approved March 28, 1868, an issue of bonds of \$15,000 is authorized, the proceeds to be applied toward removing obstructions at the mouth of the San Antonio Creek, so as to render the same navigable. The Council are, in addition, authorized to raise annually, by taxation, a sum not to exceed five thousand dollars, to be applied to the same purpose. No definite action has as yet been taken by the Council to avail itself of these privileges, and no legislation having this end in view has been commenced.

FIRE DEPARTMENT.

The first attempt to establish a Fire Department in the City of Oakland was made in the early part of 1853, which resulted in the organization of two engine companies, the Empire and Washington and the Oakland Hook and Ladder Company, and the election of John Scott as Chief Engineer. Three large cisterns, which still remain in use, were soon after constructed on Broadway, between First and Fourth streets, to supply the engines with water, and the necessary apparatus was obtained to give efficiency to the operations of the Department. The apparatus then used by the Empire Company, a small New York side-stroke engine, purchased originally at a cost of \$2,000, is now in the Santa Clara Fire Department, in good condition. This organization had but a short-lived existence. It was within a year disbanded, the property delivered over to the Council, and up to 1869, Oakland had little or no means of resisting the fiery element.

The present Department was organized March 13, 1869, under the provisions of an ordinance approved February 4, 1869, by the election of John C. Halley as Chief Engineer, and Thomas McGuire and George Taylor, Assistants, who succeeded John Scott, Chief, and John C. Halley and W. W. Moore, Assistants, acting under authority of a previous organization. The apparatus of the Department comprised a third-class Amoskeag fire engine, purchased by the city, and a hose carriage procured by funds temporarily advanced by Col. John Scott. The succeeding officers elected in 1870, were: Miles Doody, Chief Engineer; George Taylor and G. W. Scribner, Assistants; who continued in office until January 16, 1872, when George Taylor was elected Chief Engineer, and R. E. Harmon and George Farwell, Assistants, who in turn were succeeded by the present officers.

The organization of the Department is at present composed of a Board of eight Fire Commissioners, a Chief Engineer, and two Assistants. The apparatus consists of two steam engines, two hand engines, and two hook and ladder trucks; each engine has a hose carriage. The steamers and two of the hose carriages are drawn by horses.

Water for the use of the Department is obtained from forty-five hydrants, supplied by the works of the Contra Costa Water Co., and five cisterns. The estimated value of the Department property, December, 1873, is \$30,000.

Officers.—Fire Commissioners, Q. A. Chase (President), Walter Smith, G. S. Brown, John Gieschen, Hiram Thorne, George Chase, W. K. Rowell, and C. W. Freeman; Secretary, Abraham Heyman (salary, \$180 per annum); Chief Engineer, J. F. Steen (salary, \$500 per annum); Assistant Engineers, R. E. Harmon and William Myles; Fire Wardens, J. F. Steen, R. E. Harmon, William Myles, and Perry Johnson.

CHURCHES.

First Baptist.

Location, southeast corner of Fourteenth and Brush streets. (Vacant), Pastor.

This church was organized in December, 1854, under the labors of Rev. E. J. Willis, missionary.

The first house of worship was dedicated December, 1854, and was the second Protestant house of worship completed in this city. It was located at the corner of Fifth and Jefferson streets, and cost with the land about \$2,000.

Mr. Willis' pastorate terminated in June, 1856. The church was without a Pastor for about a year. In May, 1857, Rev. Harvey Gilbert began to preach, and four months later, was settled as Pastor. He resigned in December, 1858, and was succeeded in April, 1859, by Rev. J. B. Saxton. In May, 1863, Mr. Saxton having left, Rev. John Francis became Pastor of the church. Soon thereafter the house of worship was removed to the corner of Ninth and Clay streets—a more eligible situation in view of the rapid growth of the city. This house, and the lot on which it was located, were sold, when the new edifice was erected to the Oakland Turn Verein.

Mr. Francis resigned in July, 1864, and was succeeded, in November of the same year, by Rev. A. L. Baker, a recent graduate from Rochester. Mr. Baker was compelled to resign in a few months on account of ill-health. In July, 1865, Rev. B. T. Martin was called to the pastorate, and continued Pastor for nearly six years. During Mr. Martin's pastorate, the present house of worship was erected, at a cost of about \$30,000, and was formally dedicated in March, 1869, the chapel in the rear having been occupied three months before, and used while the main building was being completed. The lot cost \$2,500.

In February, 1871, Mr. Martin resigned his position as Pastor, since which time the church has had supplies most of the time, until June, 1873, when the Rev. R. F. Parshall assumed the duties of Pastor, who continued until Oct., 1873, when he resigned.

Services every Sunday, at forty-five minutes past ten o'clock A.M., and half past seven o'clock P.M. Prayer meeting, Wednesday evenings. Covenant meeting, Wednesday evening before first Sabbath in each month.

Jamison, until September, 1871, when the Rev. William Perry took charge and officiated until November, 1872, since which time the church has had no settled Pastor. Number of communicants, August, 1873, about forty-four.

The society, which has charge of the finances of the church, was organized January 7, 1861. In the following September they purchased a block of land, bounded by Broadway, Washington, Tenth, and Eleventh streets, for \$1,400, one half of which they sold in 1872 for the sum of \$65,000.

The church edifice was dedicated June 8, 1862, and cost, including furniture, \$11,345. In 1867 the building was enlarged at an expense of \$3,500, and in 1868 a chapel erected at an ad-

This church had an humble origin when Oakland numbered but few houses, and not over a hundred inhabitants. During the Summer of 1852, two families met and worshiped unitedly until a member of one of the families fell seriously ill, when the services were discontinued.

In August, 1853, Rev. Dr. Ver Mehr, Rector of Grace Church, San Francisco, visited Oakland to aid in the establishment of a church, and with much difficulty a meeting of twelve persons was convened. For various reasons, however, the project was for the time abandoned. Toward the close of the same year, the Rev. Dr. Morgan appeared, and preached a sermon to a small but attentive audience beneath the branches of one of Oakland's shady trees; and so favorable was the impression then made, that it was determined that a covered church of some kind should be procured by the following Sunday, if the reverend gentleman would repeat his visit. A large tent, twenty-five by seventy feet, was erected, with a cross upon the apex to designate the object of the structure, and a temporary pulpit fitted up. Mr. Morgan, however, was in some manner detained, but a Presbyterian minister, the Rev. Mr. Walsworth, who had incidentally visited Oakland, being present in the congregation, was invited to officiate. The same week the tent and appurtenances were sold to the Presbyterians.

In December, 1854, the Right Rev. Bishop Kip celebrated divine service in a room that had been prepared for the purpose. In January, 1855, the missionary, Rev. E. W. Syle arrived, and became acting Rector of the embryo parish. The first communion service was celebrated on Sunday, February 4, when eleven communed with the Rector. On March 5 of the same year, the parish was regularly incorporated and trustees elected, but it was not until the 8th of August following that a constitution and by-laws were finally adopted. During the same month a rented room was fitted up as a church, with benches, at a cost of \$150, current expenses being met by collections every Sunday.

The Rev. Mr. Syle resigned January, 1856, and from that time lay services were regularly held, Bishop Kip occasionally officiating.

In July, 1856, the Rev. James W. Capen became Rector, and continued in charge until 1857, when he resigned.

On March 1st, 1858, the present Rector entered upon the discharge of his duties.

A lot was purchased in 1860 for the sum of \$450, and a church edifice erected thereon at a cost of \$2,600, which has since been enlarged twice. The church was consecrated to divine service March 1, 1860. Number of communicants, August, 1873, one hundred and fifty.

Services every Sunday at eleven o'clock A.M., and half past seven o'clock P.M. On week days, daily morning prayer, at ten o'clock. Holy Communion, the first Sunday of each month; also upon each Saint's Day and Festival.

The Sunday School connected with the church was organized April, 1858. It has an attendance of one hundred and twenty-

five teachers and scholars, and a library of eight hundred volumes. Meets at forty-five minutes past nine o'clock A.M. Superintendent, Stephen Smith.

St. Paul's (Episcopal).

Location, southeast corner of Twelfth and Webster streets. Rev. Charles W. Turner, Rector; residence, Tubbs' Hotel.

This church was organized January 19, 1871, with a membership of twenty. The Rev. Thomas Williams was placed temporarily in charge, and officiated until May, 1871, when the present Rector was called to the parish.

Immediately after the date of organization, the congregation purchased a lot and edifice for the sum of \$10,000, fitting it for divine service at a cost of \$2,500 additional. In August, 1872, the church building was enlarged and greatly improved at an expense of \$4,000. It will now accommodate three hundred and fifty people; and besides the church itself has a vestry room and two large rooms for the Sunday School and other purposes. Number of communicants, May, 1873, ninety-two.

The Sunday School connected with the church was organized January, 1871. It has an attendance of about sixty-six teachers and scholars, and a library of one hundred and fifty volumes. Meets at forty-five minutes past two o'clock P.M. Superintendent, Dana Harmon.

Church officers.—Allen I. Gladding, Senior Warden; Watson Webb, Junior Warden and Treasurer; John C. Kelton, Secretary; John A. Stanly, John B. Harmon, Thomas Yolland, William C. Parker, Heman P. Babcock, George A. Parker, L. L. Baker, and E. B. Marsh, Vestrymen.

Church of the Advent (Episcopal).

Location, southwest corner of Seventeenth Avenue and East Fourteenth Street. Rev. Sidney Wilbur, Rector; residence, with James McGrath, west side Sixteenth Avenue near East Sixteenth Street.

This church was organized May 25, 1860. The Rev. Benjamin Akerly, of St John's Church, Oakland, was the first Rector, and officiated until February 25th, 1866, when he was succeeded by the Rev. Daniel Wills. In 1869, Mr. Wills resigned, and was succeeded by the Rev. Daniel Kendig, who continued in charge until July, 1870. In January, 1871, the present Rector entered upon the discharge of his duties. Number of communicants, June, 1873, fifty.

In the Spring of 1860, James B. Larue, Esq., donated to the parish two lots on the corner of Broadway and Adams streets; and the same year the church edifice was erected, at a cost of

\$2,400. Since that date, the sum of \$600 has been expended in improving the building and lots.

The Sunday School connected with the church was organized in 1860. It has an attendance of seventy teachers and scholars, and a library of two hundred volumes. Meets at half past nine o'clock A.M. Superintendent, Rev. Sidney Wilbur.

Church officers.—E. G. Mathews, Senior Warden; C. M. Nichols, Junior Warden; A. F. Rodgers, Dr. M. W. Fish, J. West Martin, M. F. Truett, and L. J. Rector, Vestrymen; L. J. Rector, Parish Clerk.

Methodist Episcopal.

Location, southwest corner of Washington and Ninth streets. Rev. W. J. Maclay, Pastor; residence, 770 Tenth Street.

This church was organized in 1862, through the exertions of Rev. C. E. Rich, who entered upon his duties as Pastor in September of the same year, and continued in charge until September, 1864, when he was succeeded by the Rev. C. Miller, who officiated one year. The Rev. H. H. Hartwell next took charge, until September, 1866, when he was succeeded by the Rev. L. Walker, who officiated until September, 1869, when he was succeeded by the Rev. T. S. Dunn, who officiated until September, 1872, when the present Pastor entered upon the discharge of his duties. In Dec., 1862, a small building was erected on the corner of Sixth and Washington streets, and used as a chapel until 1864, when the society purchased a lot for the sum of \$1,000, and erected the edifice now occupied by them at a cost of about \$4,500. Number of communicants, June, 1873, one hundred and forty.

African Methodist Episcopal.

Location, southeast corner of Market and Seventh streets. (Vacant), Pastor.

This church had its origin in 1862, when a small congregation was brought together through the exertions of Mr. Abram Gross, who preached to them for a time in a school house near the corner of Clay and Fifth streets. They afterwards worshiped for a few months at the residence of a member of the congregation, and then in the public school house at Brooklyn.

In 1863 they organized and purchased a lot and the small wooden edifice which they now occupy, for the sum of \$700. Mr. John Lane, a local preacher, then took charge and officiated about one year. Since his connection with the church ceased, several local preachers officiated successively until the Spring of 1872, when the Rev. James Dorsey took charge.

First Presbyterian.

Location, southeast corner of Broadway and Thirteenth streets. Rev. James Eells, D.D., Pastor; residence, southwest corner of Telegraph Avenue and Hobart Street.

This church was organized in the Spring of 1853, being the oldest of any denomination in Oakland. The first services were held in a cloth tent, and afterward in the public school house under the pastoral charge of the Rev. S. B. Bell. He was succeeded by the Rev. E. B. Walsworth, who officiated until December, 1865, when the Rev. L. Hamilton was called to the pastorate, and continued in charge until February 24, 1869. On August 17, 1869, the Rev. Daniel W. Poor took charge, and officiated until January 1, 1873. The present Pastor entered upon the duties of his office, August 1, 1873. Number of communicants, August, 1873, one hundred and twenty.

The edifice now occupied by the congregation was erected in 1853, at a cost of \$15,000.

Location, northeast corner of East Fourteenth Street and Fifteenth Avenue. Rev. T. M. Dawson, Pastor; residence, Tubbs' Hotel.

This church was organized February 17, 1861, with ten members. The Rev. George Pierson was the first Pastor, and officiated until 1870. From that time the Rev. Oliver Hemstreet, Rev. E. H. Camp, and others, acted as stated supplies until December, 1872, when the present Pastor, in response to a unanimous call from the congregation, entered upon the discharge of his duties, and was installed Pastor February 13, 1873. Number of communicants, August, 1873, fifty-one.

The church edifice was erected in the Summer of 1861, at a cost of \$4,700. The lot on which it stands is seventy-five by one hundred and fifty feet, and was donated to the society by James B. Larue, Esq. In 1867, the building was improved at an additional expense of \$1,800, and a bell for the edifice purchased for the sum of \$1,000.

Independent Presbyterian.

Location, southeast corner of Jefferson and Twelfth streets. Rev. L. Hamilton, Pastor; residence, west side of Jackson near Twelfth Street.

This church was organized February 28, 1869, and is the only one of a similar character in California. The Pastor of this congregation officiated for several years as Pastor of the First Presbyterian Church in this city, but for opinions expressed by him he was tried before the Presbytery, and subsequently before the Synod, resulting in his being deposed by those bodies February 24, 1869. A large portion of Mr. Hamilton's congregation, who were opposed to this decision of the Presbytery and Synod, determined upon organizing another society, and secured Brayton Hall as a temporary place of worship, where services were held until the Spring of 1870, when the edifice now occupied by the congregation was erected at a cost, including lot, of about \$22,500. Number of communicants, June, 1873, about eighty.

The Sunday School connected with the church was organized

The Sunday School numbers fifty-two scholars. Meets at ten o'clock A.M.

Church of the Immaculate Conception (Roman Catholic).

Location, west side of Jefferson Street, between Seventh and Eighth. Rev. Michael King, Pastor; Rev. Michael Mulville, Assistant. Pastoral residence adjoining the church.

Twenty years ago a room in a private house served as a place of worship for the Catholics of Oakland and nearly the whole of the present County of Alameda. A priest from the Mission of San José occasionally made a visit to celebrate mass and administer the sacraments, and even these occasional visits had to be omitted during the rainy season, owing to the bad roads. The first church, a building of the most modest description, was erected in 1853 through the exertions of a few of the congregation, and for some time was the only Catholic place of worship in the whole of Alameda and Contra Costa counties, with the exception of the old Mission. Subsequent additions, made by the Rev. Fathers Croke and King, increased the size of this edifice until it was capable of holding a congregation of several hundreds, but this, too, has become entirely inadequate to the needs of the population of Oakland although three new parishes have been formed in the county. In 1869, Father King determined to erect a church on a scale commensurate with the promised importance of this city. Plans accordingly were prepared for a building surpassing in dimensions anything in the State, though only with the intention of erecting a part of it at first, a design which has been carried out in the present structure. The foundations were laid in that year, but various causes retarded any

further progress until May, 1871, when the superstructure was commenced, and pushed vigorously forward since. Although not quite completed, the church was dedicated on the 23d of June, 1872. The ceremony of dedication was performed by the Archbishop Alemany. The sermon was preached by Father Gallagher, to whom, nearly twenty years ago, the Catholics of Oakland were in a great measure indebted for their first place of worship.

The new church is of wood, with heavy brick foundations, and built in the strongest manner, with double walls firmly braced together. The nave roof principals are supported by posts twelve inches square and fifty-four feet long, to which the principals of the aisle roofs are secured at a height of about thirty-four feet, and these at the outside rest on posts eight inches square and strengthened by side buttresses. The style of the building is early Gothic, and it consists of a nave, side aisles, chancel, and two front towers. The latter are to be surmounted by spires at a future period, but even in their present state, their height (one hundred and four feet to the top of the pinnacles) and size give a highly imposing appearance to the front. The roof is open; on the inside the spaces between the principals and tie-beams, and the latter and the arch-braces in both nave and aisle roofs, being filled in with light and elegant open-work tracery. The ceiling is paneled and painted blue, with stars; the woodwork being painted white with flower patterns in tertiary colors. At the sides, the arch-braces under the roof timbers are terminated in carved niches, intended to receive statues of the twelve apostles. The cornices are also of wood, the arches between the nave and aisles and the chancel-arch being, with the walls and ceiling under the organ gallery, the only plaster work in the building. The organ gallery projects only a few feet into the church, thus allowing its full dimensions to be better appreciated. The windows are filled with rich stained glass, the heads being ornamented with emblematic figures, and the large front window being quite a fine specimen of artistic design. Much of the interior work is yet unfinished, but that which has been done gives promise of an excellent finish when completed. It is not the least satisfactory matter in connection with this building that it is entirely the product of California design and workmanship. Nearly all the men employed on it resided at Oakland; the stained glass was manufactured by Mallon & Boyle, of San Francisco, and the fresco painting executed by S. Buzzi, of the same city. The entire cost of this building is about \$33,000, and it may be safely set down as one of the cheapest erections of its kind in California. It will seat about twelve hundred and fifty persons.

Masses on Sundays, at seven, nine, and half past ten o'clock A.M. Vespers at half past seven o'clock P.M. Mass on week days at seven o'clock A.M.

St. Anthony's (Roman Catholic).

Location, northwest corner of East Fifteenth Street and Sixteenth Avenue, East Oakland. Rev. William Gleeson, Pastor; residence, adjoining the church.

The lot on which this church stands was purchased by the parish in 1868, for the sum of \$700; and the edifice erected the same year, at a cost of \$1,600. The church services were conducted by the clergy from the Roman Catholic Church at Oakland, until November, 1871, when the Rev. William Gleeson was appointed Pastor. The congregation numbers about four hundred. Mass on Sundays at forty-five minutes past ten o'clock A.M.; and on week days, at seven o'clock A.M. Vespers on Sundays, at half past seven o'clock P.M.

Soon after the news of the destruction of Chicago by fire

reached Oakland, several benevolent ladies of this city met and organized a sewing society, for the relief of the sufferers. After this object was accomplished they concluded to organize under the name of the Ladies' Relief Society, for the purpose of aiding the destitute of their own city, especially women and children, and also to provide a home for aged females.

During the past year Elijah Bigelow, Esq., donated to the society a lot on Franklin Street, between Fourteenth and Fifteenth, valued at \$7,000, which he subsequently exchanged for three and a half acres of land near Temescal Creek and directly on the line of the Berkeley Railroad. A D A M S , PIONEER HATTER,

925 Broadway, near Ninth Street, Oakland.

HATS for figures broad and burly,
HATS for straight hair and curly,
HATS for faces melancholy,
HATS for features bright and jolly,
HATS for gentlemen of standing,
HATS that give a look commanding;
HATS for walking riding, driving,
HATS dull faces look alive in;
HATS that stand all kinds of mauling,
HATS for every trade and calling;
HATS of many shapes uncommon,
HATS admired by lovely women;
HATS of quiet styles for pastors,
HATS low crown—your knowing castors;
HATS to make the heart rejoice,
HATS for children and for boys;
HATS that would a saint entice,
HATS for all, at any price.

STENCIL PLATES CUT BY F. M. TRUWORTHY, 318 FRONT STREET, SAN FRANCISCO, CAL.

STENCIL PLATES, when handsomely executed, present the cheapest and best mode of advertising that can be adopted. This is the experience of all who use them.

STENCIL PLATES OF EVERY PATTERN cut at this establishment in a style unequalled by any other workmen in California.

MERCHANTS and others are invited to call and examine specimens in proof of the above assertion.

Orders from abroad, as well as those given in person, promptly executed and forwarded. Parties sending orders by letter are particularly requested to WRITE FLAINLY and give the EXACT SPACE THEY WISH THE LETTERS TO OCCUPY.

By close application and superior execution of work during an experience of thirteen years, Mr. TRUWORTHY has extended his business to its present proportions. His present facilities for rapid and tasteful execution of all work in his line are far superior to those of any other in this State or in the Union.

Having purchased all of the late John Hall's Stencil Tools, Plates and Impressions, and everything pertaining to his business, I am prepared to furnish his customers with fac-similes of his work.

By this system, the pupil receives while in the school the same practice in conducting business affairs that he would in a *bona fide* Bank, Office, or Counting-House.

THE SCHOOL-ROOM and COUNTING-ROOM

Are united upon a plan that secures to the student all the practical advantages of each. There is in operation a Banking House, with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fully illustrating the banking business. The school-room is elegantly fitted up with

**Merchandising, Jobbing, and Importing Emporiums,

HEALD'S BUSINESS COLLEGE, 24 POST ST., SAN FRANCISCO.

The Leading Institution of Business Training on the Pacific Coast.

This is the only school in San Francisco that makes a Business Education its distinct and separate specialty. Its teachers are competent and experienced. Its pupils are from the best class of young men in the State. It is under the very best discipline. Its Scholarships are good in the THIRTY-SIX Bryant & Stratton Colleges. It employs four of the best penmen in the State. It has the largest rooms, the largest attendance, and the most complete system of business training, of any commercial school on the Pacific.

YOUNG MEN AND LADIES

Wishing to prepare themselves for the practical duties of life, will find this the best school. Pupils learn just what they need to accomplish success, and do not meddle with superfluous studies. Each student receives separate instruction, and can thus advance as rapidly as desired, not being kept back by those more deficient. All persons passing the final examination in a satisfactory manner, will receive our finely-engraved GRADUATING DIPLOMA. Graduates of this College are in demand among Business Men, and can readily find good positions. Such as are in good standing are assisted in obtaining situations, if desired.

OUR BUSINESS COURSE

Is especially adapted to the wants of young and middle-aged men, who wish to prepare for the active duties of life, whether as book-keepers, salesmen, merchants, bankers, professional men, or even farmers or mechanics.

THEORY AND PRACTICE

Are combined in such a manner as to make each a powerful help to the other.

The Student Buys, Sells, Ships, Barter, Consigns, Discounts, Insures, Draws Checks, Notes, and Drafts, Gives Leases, Deeds, etc., and goes through the entire routine of actual business. He becomes acquainted with changing books from Single to Double Entry, and vice versa, and also with Joint-Stock and Partnership Books, and every form and style of Book-Keeping practised in well-regulated Business Houses. Jobbing, Importing, Commission, and Banking are carried on with the students of the other Colleges in the Association—thus fully illustrating the methods of carrying on business and keeping books when there are different currencies. The pupil becomes familiar with all the calculations and entries connected with Legal Tender and Gold transactions.

SESSIONS CONTINUE DAY AND EVENING.

Clerks, mechanics and others engaged during business hours, can secure a sound Mercantile Education by attending evenings only. There are no class systems to keep the pupil back; each can advance as rapidly as desired. No particular age or degree of advancement is required to enter the College. We have in operation an

ACADEMIC DEPARTMENT,

Where all the branches of an ordinary English Education are taught, for those who are too young or not sufficiently advanced for the Business Course. Visitors are always welcome at the College.

FURTHER INFORMATION.

Young men and young ladies should obtain full particulars regarding this useful Institute of Practical Education. Now is the time to get an education. Use the present, and you can trust in the future. Competent persons are wanted in all departments of industry. In order to learn all about this school, send for

HEALD'S COLLEGE JOURNAL,

Which is issued monthly, by the College, and contains full particulars regarding the Course of Studies, Expenses, etc.; also, a large amount of interesting reading. It can be obtained, free of charge, either at the College Office, 24 Post Street, or by addressing

IMPORTANT ACTS OF THE LEGISLATURE A N D MUNICIPAL ORDINANCES, RELATING TO THE CITY OF OAKLAND, DEC., 1873.

CITY CHARTER.*

AN ACT TO INCORPORATE THE CITY OF OAKLAND, APPROVED, MARCH 25, 1854, WITH THE AMENDMENTS THERETO.

The People of the State of California,
represented in Senate and Assembly, do enact as follows:

SECTION 1. The corporation, or body corporate, now existing and known as the Town of Oakland, shall remain and continue to be a body politic and corporate, by the name of the City of Oakland, and by that name shall have perpetual succession; may sue and defend, in all Courts and places, and in all actions, and shall have and use a common seal, and alter the same at pleasure; and may purchase, receive, hold, and enjoy real and personal property, and sell and dispose of the same for the common benefit: *provided*, that it shall purchase without the city no property except such as shall be deemed necessary for establishing hospitals, prisons, cemeteries, industrial schools, and water works.

SEC. 2. The boundaries of said city shall be the same as the boundaries of the late Town of Oakland, which are more particularly defined and described, as follows, to wit: Northerly,† by a straight line drawn at right angles with Broadway, formerly Main Street, in said city, crossing the extended line of Broadway at a point three hundred and sixty rods northerly from where stood the "Oakland House," on the northwest corner of Broadway and First streets, and running from the Bay of San Francisco, on the west, to the easterly or southeasterly line of that branch of the San Antonio Slough, or estuary, over which crosses the bridge from Oakland to Clinton; thence among [along] the

* The act of the Legislature, approved February 5, 1872, legalizes and declares valid "in respect to the way and manner, the penalties fixed" in the ordinances of the city under this charter.—COMPILER.

† By authority of the Act of the Legislature, approved February 1, 1872, limits on the north have been extended by a vote [March, 1872] of the citizens residing therein, so as to include the district lying south of the lands of J. Mora Moss, and a line running westerly therefrom to the Bay.—COMPILER.

eastern and southern highest tide line of said slough, and of the estuary of San Antonio, following all the meanderings thereof to the mouth of said estuary, in the Bay of San Francisco; thence southwesterly to ship channel; thence northerly, along the line of ship channel to a point where the same intersects the said northern boundary line, extending westwardly: *provided*, that nothing in this section contained shall be so construed as to prohibit or abridge the right of the Trustees of the Town of Clinton and San Antonio, whenever the citizens thereof may elect, to become a body corporate, under the provisions of An Act for the Incorporation of Towns, or under the provisions of any Act which may hereafter be passed, to provide for the construction of wharves and other improvements for the accommodation and convenience of the trade, travel, and commerce of the said towns or villages, at their respective sites.

MUNICIPAL OFFICERS.

SEC. 3. The municipal election shall be held on the first Monday of March, of each year; and such elections shall be subject to all the provisions of the law regulating elections for State officers, except as in this Act provided otherwise. There shall be elected and appointed, for the government of the City of Oakland, seven Councilmen, who shall constitute a Board, known as the City Council; a Mayor, an Assessor, a Treasurer, who shall be *ex officio* Clerk of the City Council, and a Marshal, who shall be *ex officio* Tax Collector of said city. The Mayor shall be elected for one year, and until his successor is elected and qualified. The Assessor shall be elected for two years, and until his successor is elected and qualified. The Marshal shall be elected for two years, and until his successor is elected and qualified, except at the first election when he shall be elected and hold his office for one year. The Treasurer shall hold his office for two years, and until his successor is elected and qualified. The Councilmen shall be elected, and hold their office for two years, and until their successors are elected and qualified: *provided*, that, at the first election, the three Councilmen, of the seven elected, having received the least number of votes at the election, shall be elected and hold their office one year, and until their successors are elected and qualified.

POWERS AND DUTIES OF THE CITY COUNCIL.

SEC. 4. The City Council shall meet on the first Monday after their election, and at such other times as they may, by ordinance, appoint. A majority of the Common Council shall constitute a quorum for the transaction of business. They shall determine the rules of their proceedings, and judge of the qualification and election of all officers elected under the provisions of this Act; and shall provide, by ordinance, the method of calling special meetings of the Council; their sittings shall be public. A journal of their proceedings shall be kept by the Clerk, under their direction, and the ayes and noes shall be taken, and entered on the journal, at the request of any member; they shall

prescribe, by ordinance, the duties of all officers whose duties are not defined in this Act; they shall have the power to raise, by tax, not exceeding one and one fourth per cent. for all purposes (except for the redemption of bonds), on the assessed value of the real and personal property within the limits of said city, moneys for the establishment and support of free common schools, and to provide suitable grounds and buildings therefor; and for the defraying the ordinary expenses of the city, as well as for paving, planking, or otherwise improving the streets of the city; they shall also have power to pass all proper and necessary ordinances for the regulation and sale of city property, and to give deeds therefor; they shall have power to open, alter, establish, grade, or otherwise improve and regulate streets, alleys, and lanes, and the sidewalks upon the same; to construct and keep in repair bridges, fences, public places, wharves, docks, ferries, piers, slips, sewers, and wells, and to make the assessments therefor; to regulate and collect tolls, wharfage, dockage, and craneage upon all water crafts, and all goods landed; to make regulations for securing the health, cleanliness, ornament, peace, and good order of the city; for preventing and extinguishing fires, and regulating fireman, policemen, and such other officers as may be necessary to appoint for the care and regulation of prisons and markets; for licensing, taxing, and regulating all such vehicles, business, and employments as the public good may require, and as may not be prohibited by law; to levy a tax-license upon all dogs, or otherwise prevent the same from running at large in the streets and public grounds of the city; to regulate and suppress all occupations, houses, places, amusements, and exhibitions, which are against good morals, or contrary to public order and decency; for the regulating and location of slaughter-houses, markets, stables, and gas-works, and houses for the storage of gunpowder and other combustible materials; and to pass all such other ordinances, and provide suitable buildings for the management, good government, and general welfare of said city, as may not be inconsistent with this charter, or with the Constitution or laws of this State, or the United States. They shall also have power to pass such ordinance or ordinances, as may be necessary to prevent animals from running at large within the limits of the city; to establish a pound and appoint a Pound Keeper, and prescribe his duties, and to provide for the public sale, by the Pound Keeper, of such animals as may be impounded, in the same way, and upon like notice, that personal property is sold by execution, under the laws of the State: *provided*, said City Council shall allow, by ordinance, the owner or owners of such property so impounded to reclaim the same at any time before sale, upon payment of costs and charges of taking up and impounding, and within thirty days after the sale, shall allow him or them, upon proof of the ownership of the property sold, duly made before the Mayor, and upon payment of the costs and expenses of impounding and selling, and upon the payment of the sum of one dollar to the May-

or,* as a fee for the investigation of the question of ownership, and for his certificate to that effect, the purchase money arising from such sale or sales ; they shall also have power to affix penalties to the violation of any and all ordinances ; such penalties shall be by fine, not exceeding one hundred dollars, and in case the fine be not paid, then they may direct that the person or persons may be imprisoned, at the rate of one day for every two dollars of the fine imposed, or in lieu of the imprisonment, or any part of it, they may direct that the person or persons so fined shall labor, under the direction of the city authorities, either upon the streets, public grounds, or buildings, or in such other places as may be deemed advisable for the benefit or revenue of said city ; they shall have power to appoint suitable persons to fill vacancies in the office of Mayor, Councilmen, or any other elective office, until the next regular charter election, when, if the term be unexpired, an election shall be held to fill such vacancy for the unexpired term of said officers. They shall also have power to determine the compensation to be paid to the Assessor, Treasurer, and Clerk, Marshal, and all other officers to whom the receipt or expenditures of the moneys or funds of the city shall be intrusted : *provided*, that the members of the City Council shall receive no salary for their services. The City Council shall have no power to borrow money, unless they shall, by ordinance, direct the same, in anticipation of the revenue for the coming year, and shall provide in said ordinance for repaying the same out of such revenue; nor in such case shall they borrow a sum to exceed ten thousand dollars. They shall have power to provide for all city elections, to designate the place or places of holding the same, giving at least ten days' notice thereof ; to appoint Inspectors and Judges of Election, examine the returns, and declare the result, and to determine contested elections. The Board shall elect a member from their own body to preside at the meetings, and to discharge the duties of Mayor whenever there shall be a vacancy in the office of Mayor, or the Mayor shall be absent from the city, or be unable, from sickness or other cause, to attend to the duties of his office; and in absence of the Clerk, to appoint one of their members to act as Clerk; they shall have power, whenever they may deem it necessary to exercise the same, to establish and fix by ordinance, a salary for Mayor, in addition to the fees received by him as Justice of the Peace;* but such ordinance shall not take effect unless ratified by a vote of the citizens of said city, at the next succeeding election. They shall also have power, and may set aside any amount of money belonging to the city which may at any time be in the hands of the Treasurer, after deducting the current expenses of the city, and the interest due upon the funded debts of said city, as a sinking fund, whereby the bonds issued by said city may be redeemed; or they may, at any time before said bonds shall become due, with any surplus money which may belong to the city, after pay-

They shall also have the power to establish fire districts, and within said districts to prevent the erection of wooden buildings, or any buildings composed of combustible materials; and also to prevent the further repairing of wooden buildings within the fire limits established.

SUPPLEMENTAL I.—*An Act supplemental to An Act to Incorporate the City of Oakland*; approved March 25, 1854. Approved April 4, 1864.

*The People of the State of California,
represented in Senate and Assembly, do enact as follows:*

SECTION 1. The Council of the City of Oakland shall have power to prohibit or suppress the erection of slaughter-houses, or the slaughtering of animals within the limits of the city, and also to prohibit or suppress the erection or carrying on of any soap or glue factory, or tan yard, or powder magazine, or other nuisance, within the limits of said city.

SEC. 2. The Council of the City of Oakland shall have authority to erect public buildings for municipal purposes upon one of the public squares of said city: *provided*, the location of such building shall first be indicated by the legal voters of the city, at an election to be called by the City Council, which may be held for that purpose, and in such election the locality receiving a plurality of the votes cast, provided it be a public square, shall be the place for the erection of said buildings; and said election shall be held in conformity with the laws regulating elections.

SEC. 3. The Council of the City of Oakland shall have power, by ordinance, to regulate the use of hacks, carriage, drays, carts, and wagons within said city, also to issue licenses for the use thereof, with the power to fix the rates and time of issue thereof, and to prescribe the penalty for the non-compliance with such ordinance or ordinances.

SEC. 4. There shall be elected at the annual charter election

in said City of Oakland, one Justice of the Peace, who shall hold his office for the term of one year, and until his successor is elected and qualified. Said Justice shall have such powers within said city as Justices of the Peace have within the County of Alameda, and shall receive the same fees. Said Justice, before entering upon the duties of his office, shall give a bond to the People of the State in the sum of two thousand dollars, with two or more sureties, to be approved by the Mayor of said city.

SEC. 5. They shall also have the exclusive right, in the manner described by ordinance, of issuing and granting of licences, and of collecting the tax licenses, for the benefit of the city, upon the following business and property to wit: Upon each and every person, within the limits of said city, who shall vend any goods, wares, or merchandise, wines, or distilled and fermented liquors, drugs or medicines, jewelry, or wares of precious metals, and persons who keep horses or carriages for rent or hire (except mules, horses, or animals used in the transportation of goods); that is to say, all persons dealing in the aforesaid business in said city, and whose average monthly sales, rents, or receipts are estimated at one thousand dollars, and less than five thousand dollars; and those also whose average monthly sales, rents, or receipts, are one thousand dollars and less than one thousand dollars; also, upon all taverns, innkeepers, and upon all persons who may sell and dispose of any malt, spirituous, or fermented liquors or wines, in less quantities than one quart, and the said licenses shall be issued quarterly or yearly; also, upon every person within the limits of said city who shall keep a stallion, jack, bull, or ram, and who shall permit the same to be used for the purpose of propagation, for hire or profit, which license shall be a yearly license; all of which licenses, when granted by said city, and duly obtained by the person or persons desiring the same, shall entitle them to carry on said business, trade, or profession in said city; but this section shall not be so construed as to require those having licences for carrying on said business to obtain one from the city until the expiration of the licenses now held by them.

TIME AND METHOD OF LEVYING TAXES.

SEC. 6. The City Council shall, between the first Monday in January and the first Monday of March, in each year, by ordinance, levy a tax sufficient to pay the interest on the funded debt of said city, and in addition thereto, any amount they may deem necessary for any and all purposes for which they are authorized to levy a tax, the whole amount of which, not exceeding one and one fourth per cent, on all real and personal property. Such ordinance shall designate the number of cents which shall, on each one hundred dollars of taxable property, real and personal, and improvements, be levied. The City Council shall, prior to the first Monday of March, of each year, furnish, or cause to be prepared, suitable and well-bound books for the use of the Assessor, in which he shall enter his tax list or assessment roll, as hereinafter set forth.

SEC. 7. Every tax levied under the provisions or authority of any ordinance passed in pursuance of this Act, is hereby made a lien upon the property assessed, which lien shall attach on the first Monday of March in each year, and shall not be satisfied or removed until the taxes are all paid or the property has absolutely vested in a purchaser, under a sale of taxes.

SEC. 8. Every ordinance passed by the City Council shall be presented to the Mayor, for his approval; if he approve, he shall sign it; if not, he shall return it within five days thereafter, or if the City Council be not then in session, at its next meeting, when said City Council shall reconsider said ordinance; and if approved by two-thirds of all the members elected to such Board, it shall take effect and stand as an ordinance of the city.

DUTIES OF THE ASSESSOR.

SEC. 9. It shall be the duty of the Assessor, before entering upon the duties of his office, and within ten days from the time he has received his certificate of election, to qualify, and also to file his official bond, payable to the city, with two or more sufficient securities, in such sum as the City Council shall determine, for the faithful discharge of his official duties. If the Assessor shall neglect to assess any property liable to be taxed, or shall fail to perform his duties in the manner, time, and form prescribed in this charter, he shall be liable on his official bond, for all the damages and losses the city or any person may sustain by reason of said neglect.

SEC. 10. The Assessor shall have power to administer oaths or affirmations, contemplated by law, in the discharge of his official duties.

SEC. 11. Between the first Monday in March and the first Monday in August, in each year, he shall ascertain, by diligent inquiry and examination, all property within the corporate limits of said city, real or personal, subject to taxation, and also the names of all persons, corporations, associations, companies or firms, owning, claiming or having the possession or control thereof; and he shall determine the cash value of all such property, and shall list and assess the same to the person, firm, corporation, association or company, owning or having the possession, charge, or control thereof: *provided*, that real property shall be assessed to the person, firm, corporation, association, or company owning, or having possession, charge, or control thereof, and to all owners and claimants, known and unknown: and, *provided further*, that where the owner is unknown to the Assessor, it shall be assessed to unknown owners. For the purpose of enabling the Assessor to make such assessment, he shall demand from each person and firm, and from the President, Cashier, Treasurer, or Managing agent of each corporation, association, or company within the city, a statement, under oath or affirmation, of all the real estate and personal property within the city limits, owned or claimed by, or in the possession or control of, such person, firm, or corporation, association, or company. If any person, officer,

or agent, shall neglect or refuse, on the demand of the Assessor, to give, under oath or affirmation, the statement required by this section, the Assessor shall make an estimate of the value of the taxable property which such person, officer, or agent neglected or refused to render under oath or affirmation, and the value so fixed by the Assessor shall not be reduced by the Board of Equalization.

SEC. 12. At the same time and in the same manner as the other lists of property herein required are given, each and every person shall deliver, under oath or affirmation, to the Assessor, a similar list of all the real estate, with the improvements thereon if any, and other personal property, which he, and the firm of which he is a member, and the corporation, association, or company, of which he is President, Cashier, Treasurer, Secretary, Trustee, or Managing Agent owns, claims, or has charge, possession, or control of, within the limits of the city, which list shall particularly describe each block or plot, or if less than a block, each lot, so that each may be found and known by reference to the official map of said city; also, all vessels, steamers, and other water crafts; also, oyster beds, and extent and location thereof; and shall also specify each and all deposits, and with whom such deposits are made, and the place or places in which the same may be found; also, all bonds, notes, mortgages, due bills, and other evidences of debt, together with all money and gold dust; and shall also specify the kind and nature of all other personal property belonging to, or under the control, charge, or in the possession of him or them.

SEC. 13. If any person shall willfully make, or give, under oath or affirmation, a false list of his, her, or their taxable property, under his or her control, such person shall be deemed guilty of perjury, and upon conviction thereof shall be punished therefor as is by law provided for the punishment of perjury.

SEC. 14. If any person shall give the Assessor a false name, or shall refuse to give his or her name, or shall refuse to give a list of property theretofore provided, or shall refuse to swear or affirm to such list, he or she shall be deemed guilty of a misdemeanor, and shall be arrested upon complaint of the Assessor, and upon conviction before the Mayor or a Justice of the Peace, he or she shall be punished by a fine of not less than ten dollars nor more than five hundred dollars, or by imprisonment not less than two days nor more than two months, or by both such fine and imprisonment.

SEC. 15. It shall be the duty of the Assessor to prepare a tax list or assessment roll, alphabetically arranged, in the book furnished for that purpose, in which shall be listed or assessed all the real estate, and improvements on real estate and on public lands, and all personal property within the limits of the city. And he shall set down in separate columns:

First—The names of the taxable inhabitants, firms, incorporated companies or associations, in alphabetical order, if known; if unknown, the property shall be assessed to unknown owners;

and if any person shall refuse to make a statement of his property, under oath, as required, that fact shall be noted under his name.

Second—All real estate and improvements, taxable to each inhabitant, firms, incorporated companies, or associations, described by “plots,” “blocks,” “lots” or fractions of lots, where it can be done; and where it is by plots, give, as near as may be, the number of acres; and if any lands or improvements have not been plotted, then describe the same by metes and bounds, and the number of acres and location: *provided*, that when two or more parties claim, or give a description of, the same land, it shall be assessed to each party making such claim, or giving such description, according to the estimated value of the claims of each.

Third—The cash value of real estate, and the improvements thereon.

Fourth—The cash value of all the improvements on real estate where the same is assessed to a person other than the owner of said real estate.

Fifth—The cash value of all personal property, except improvements on real estate or public lands, taxable to each.

Sixth—The total value of all property taxable to each.

And no further description of personal property than that required by the foregoing provisions of this section shall be needed, or be requisite, to render the assessment binding and effective.

SEC. 16. On or before the first Monday in August, in each year, the Assessor shall complete his list or assessment roll, and shall attach his certificate thereto, and deliver it and the books, and any map he may have accompanying the same, and all the original lists of property given to him, to the Clerk of the city; and the Clerk shall thereupon notify the Board of Equalization and the tax payers of the facts, by posting three notices, specifying the time of the meeting of said Board for the purpose of equalizing the taxes. Said roll shall be kept open in his office, for public inspection.

SEC. 17. It shall be lawful for the Assessor, at any time subsequent to the first Monday in August, and prior to the last Saturday in October, of each year, to assess any property which shall not be on the regular list, and he shall enter such assessment in a separate portion of the tax list or assessment roll, under the head of “Subsequent Assessments,” and shall deliver the original assessment or a true copy thereof, to the Clerk of said city, to be by him compared with the entries on the assessment roll, which subsequent (assessment) shall be certified by the Assessor.

BOARD OF EQUALIZATION.

SEC. 18. The Mayor of said city, the President of the City Council, the City Marshal, and the Clerk of the city, shall constitute a Board of Equalization, and said Clerk shall be Clerk of said Board. The Board shall meet on the second Monday of August, and shall continue in session from time to time until the

business of equalization presented to them is disposed of: provided, however, they shall not sit after the first Monday in September, except as hereinafter provided. The Board of Equalization shall have power to determine all complaints made in regard to the assessed value of any property, and may change and correct any valuation, either by adding thereto, or deducting therefrom, if they deem the sum fixed in the assessment roll too small or too great, whether said sum was fixed by the owner or the Assessor; except, that in cases where the person complaining of the assessment has refused to give the Assessor his list, under oath, as required under this Act, no reduction shall be made by the Board of Equalization in the assessment made by the Assessor; and if the Board of Equalization shall find it necessary to add to the assessed valuation of property on the assessment roll, they shall direct the Clerk to make a list of the names of all persons whose assessments have been so added to, and opposite the name of each person on said list they shall state the amount so added on the assessment roll, a copy of which list, certified to by said Clerk, shall be posted at some public or conspicuous place in said city, which list shall be posted prior to the first Monday in September; and it shall also contain a notice that the Board of Equalization will again meet, on the second Monday of September, to hear and determine any and all complaints in relation to said increased assessment. And the Board shall meet on the second Monday of September for said purpose, and may, if necessary, continue in session, from time to time, during said week; but no person shall be entitled to be heard in the matter, unless he shall make affidavit that he did not appear before said Board in August, or if he did so appear, that he had no knowledge of such increased assessment or valuation while said Board were in session in September; and any and all changes which said Board shall then make, shall at once be entered on the assessment roll or list, and the same shall also be noted on the original increased assessment list.

SEC. 19. During the session of the Board of Equalization, the Clerk shall enter upon the assessment roll all the changes and corrections made by the Board, and he shall also add up the columns of valuation of each description of property on the roll; and on or before the third Monday in September, as to the original assessment roll, and on or before the second Monday in November as to the subsequent assessment roll, he shall deliver a corrected roll, duly certified by him, or certified copy thereof, to the Tax Collector.

SEC. 20. Upon the first Monday in November, the Board of Equalization shall again meet, to equalize the subsequent assessment made by the Assessor, and to hear complaints, as provided in the foregoing sections. A quorum of said Board shall consist of three of any of the persons composing said Board, and a quorum of said Board shall be sufficient to constitute the Board of Equalization, and for the transaction of business; and, should the Clerk be absent at any of the meetings of said Board, said

Board may appoint one of their number to perform his duties herein described during his absence.

DUTIES OF TAX COLLECTOR.

SEC. 21. The City Marshal, who shall be *ex officio* Tax Collector, before entering upon the duties of his office, shall execute to the City of Oakland an official bond, with two or more sufficient sureties, in such sum as the City Council may direct, and to be approved by the Mayor, conditioned for the faithful performance of all the duties of City Marshal and all the duties of Tax Collector, as required by law, or as may be required by virtue of any ordinance of the city, and shall take the oath of office, which shall be indorsed upon his certificate of election or appointment.

SEC. 22. The Tax Collector is hereby authorized and empowered, and it shall be his duty, upon the entry of any assessment of movable property, to any firm, person, corporation, association, or company, who does not own real estate within the city, to demand forthwith the payment of the taxes; and if any such person, firm, corporation, association or company, shall neglect or refuse to pay such taxes, the Tax Collector shall seize sufficient of the personal property of the party so neglecting or refusing to pay, to satisfy the taxes and costs, and shall post a notice of such seizure with a description of the property, and the time and place where it will be sold, in three public places in the city, and shall, at the expiration of five days, proceed to sell, at public auction, at the time and place mentioned, to the highest bidder for cash, a sufficient quantity of said property to pay the taxes and expenses incurred; and for this service the Tax Collector shall be allowed from the delinquent party a fee of three dollars, and the same mileage that a Sheriff would be entitled to receive for traveling to the place to make a levy; and upon payment of the purchase money, he shall deliver to the purchaser the property sold, together with a certificate of sale, and the amount of taxes or assessments and expenses thereon, for which the property was sold, whereupon the title to the property so sold shall vest absolutely in the purchaser.

SEC. 23. The Tax Collector shall, on the first Monday in each month, return to the Clerk a list of all collections made under the preceding section, and it shall be the duty of the Clerk to mark the word "paid" on the original or subsequent assessment roll, opposite the name of each party whose taxes are so paid, as soon as the same shall have been delivered to him.

SEC. 24. SEC. 56. If any officer under this Act, or member of the City Council, shall remove from the city, or absent himself therefrom for more than thirty days, or shall fail to qualify by taking the oath of office, as prescribed by law, or to file his official bond, whenever such bond is required, within ten days from the time his election is duly ascertained and declared, his office shall

be thereby absolutely vacated, and the City Council shall thereupon fill the vacancy.

SEC. 57. The City Council shall, when they may deem the same necessary, establish by ordinance a general plan or plans of streets, for any and all portions of the city not laid out into streets; and after such plan or plans shall have been so established, any improvements which may thereafter be made, or erected, or constructed, within the lines of any street contemplated by said plan or plans, shall not be included in any assessment of damages which may be made when the city proceeds to open said streets. If the City Council so resolve, it shall direct the City Marshal to give written notice to the owners or the occupants of the land embraced within the lines of said street, or owning or occupying the lands abutting upon the same, which said notice shall briefly state the substance of said petition, and shall require such owners or occupants to appear before such Council, at the time which said Council shall designate by resolution, which shall not be less than twenty days from the adoption of such resolution, and not less than ten days after the service of said notice upon said owners or occupants, then and there to state any objections they may have to the opening of said street: *provided*, however, that whenever the lands embraced within said lines of said streets, or abutting upon the same, are vacant or unoccupied, or the owners or occupants thereof cannot be found within the limits of said city by said Marshal, then, and in that event, it shall be a sufficient service of said notice upon said owners or said occupants to post the same in a conspicuous place upon said vacant or unoccupied lands, and also at the office of the Mayor of said city, at least ten days prior to the said time fixed for said appearance. At the time appointed for said hearing, the parties notified shall appear and briefly state, in writing, their objections, if any they have, to the opening of said street or streets; and if damages are claimed, shall also therein state the amount thereof; if damages are claimed, the Council shall designate a day to determine the same, which shall not be less than ten days after the time so appointed to hear such parties as aforesaid. Thereupon, said Council shall separately assess the amount of damages to each person entitled to the same: *provided*, that if the opening of said street or streets shall benefit the lands abutting upon or adjacent to the same, and increase the value thereof, such benefit and increase in value shall be estimated and deducted from the damages. If, however, after being notified as aforesaid, said owners or occupants fail to appear and claim damages as aforesaid, the said Council shall only award them nominal damages. Any owner or occupant of land aggrieved by the action of the Council respecting the amount of damages allowed them, shall have the right to appeal to the County Court of the County of Alameda, where said question of damages, and none other, shall be heard anew and determined. Said appeal shall be taken by filing a notice with the Clerk of said County Court, and by serving a copy upon the Mayor of said city, within five days after said assessment of damages by said Council; and within three days after the filing of such notice said aggrieved party shall cause to be transmitted to the said County Court, a copy of the order or resolution of said Council, assessing said damages, certified to by the Clerk of said Council, for which copy and certificate, said Clerk shall be entitled to receive a fee of two dollars. Upon the filing of said certified copy of said order or resolution in said County Court, together with an undertaking on the part of said appellants, in the sum of one hundred dollars, executed by two good and sufficient sureties, to be approved by the Mayor of said city, which said undertaking shall be conditioned to the effect that the said appellants will pay all the costs of the appeal and all costs that may be recovered against him or them in said County Court: *provided*, he or they recover therein no greater sum as damages than were assessed or allowed by said Council, together with ten per cent. additional thereto—the County Judge shall order a special term of said County Court to be holden upon a day to be designated, not more than ten days after filing said certified copy of said resolution or order, at which said special term, the said issue as to damages should be tried *de novo*, with or without a jury, as the parties may desire; and upon the rendition of judgment therein, a certified copy thereof shall be transmitted by the Clerk of said Court to the Clerk of the City Council, who, upon the order of said Council, shall cause the amount thereof to be paid by the Marshal of said city to the parties entitled to the same. Said judgment shall separately state the amount of damages to which each party is entitled. If the appellants, or either of them, recover no more in said County Court than the amount allowed or assesseed to him by said Council, together with ten per cent. additional thereto, he shall pay the costs of the appeal; but if he or they recover a sum more than ten per cent. beyond the amount so allowed, he shall be entitled to recover of said city the said costs of appeal: *provided*, that if any claimant of damages shall not give

notice of appeal in the manner and within the time hereinbefore specified, then he shall be deemed to have assented to said assessment of damages by said Council; and *provided*, further, that if any occupant or owner of such lands shall fail, after being notified as aforesaid, to appear and claim damages, he shall be deemed to have waived his right of appeal to said County Court. The provisions of an Act entitled An Act to regulate proceedings in civil cases in the Courts of Justice of this State, and the Acts amendatory thereof and supplementary thereto, shall be applicable, so far as the same are not inconsistent with this Act. There shall be the same right to an appeal from any such judgment rendered in said County Court as if the action had been originally brought therein. When the amount of damages shall be finally ascertained and determined, the said Council shall order the City Marshal to pay the amount thereof, to the parties entitled thereto, and upon such payment, or the tender thereof, the said Marshal shall proceed and open said street. All streets that have been laid out by the authorities of the Town or City of Oakland, and declared to be public thoroughfares or streets, and that have been used as such, shall be, and are hereby declared public streets, to the extent that the same may have been used: *provided*, that private rights of property shall not be affected thereby.—[Amendment, April 25, 1863.]

SEC. 58. An Act to incorporate the City of Oakland, passed March twenty-fifth, eighteen hundred and fifty-four, and also an Act to amend an Act entitled An Act to incorporate the City of Oakland, passed March twenty-fifth, eighteen hundred and fifty-four, approved May fifteenth, eighteen hundred and sixty-one, and also an Act amendatory of and supplementary to an Act entitled An Act to incorporate the city of Oakland, passed March twenty-fifth, eighteen hundred and fifty-four, approved May fourteenth, eighteen hundred and sixty-one, and also all other Acts in conflict with the provisions of this charter, are hereby repealed: *provided*, that the validity of the ordinances or proceedings of the Trustees of the Town of Oakland, and of the authorities of the City of Oakland, shall in no wise be affected thereby.—[Amendment, April 25, 1863.]

SEC. 59. [Obsolete.]

*The People of the State of California,
represented in Senate and Assembly, do enact as follows:*

SECTION 1. The City Council of the City of Oakland shall have power, upon the payment of just compensation, to lay out and open new streets, lanes, alleys, courts, and places within the corporate limits of said city, but shall have no power to subject

the city, to any expenses therefor, except for the necessary expense of surveying and mapping out the same; and when said streets are so laid out and opened, the provisions of this Act shall be applicable thereto.

SEC. 2. The City Council are hereby authorized and empowered to order the whole of any portion of the streets, lanes, alleys, places, or courts of said city graded or regraded to the official grade, planked or replanked, paved or repaved, macadamized, piled or repiled, capped or recapped, or to order sidewalks, sewers, cesspools, manholes, culverts, curbing and crosswalks, to be constructed therein, and to order any other work to be done which shall be necessary to make and complete the whole or any portion of said streets, lanes, alleys, places or courts; and they may order any of the said work to be improved whenever the interest and convenience of the public will be promoted thereby.—[Amendment, March 29, 1870.]

SEC. 3. The City Council may order any work authorized by section two of this Act to be done, after notice of their intention so to do, in the form of a resolution, describing the work, and signed by the Clerk of said Council, has been published for a period of ten days. At the expiration of any notice of intention as hereinbefore provided, the City Council shall be deemed to have acquired jurisdiction to order any of the work to be done, or to be afterwards improved, which is authorized by section two of this Act; and all owners of lands, or lots, or portions of lots, who may feel aggrieved, or who may have objections to any of the subsequent proceedings of the said Council in relation to the work mentioned in such notices of intention, shall file with the said Clerk a petition of remonstrance, wherein they shall state in what respect they feel aggrieved, or the proceedings to which they object; such petition or remonstrance shall be passed on by the said City Council, and their decision therein shall be final and conclusive. The owners of more than one half in frontage of the lots and lands fronting on the work proposed to be done, and designated in said resolution (exepting work proposed to be done on Broadway Street in said city), may make written objections to said proposed work within ten days from the first publication of said resolutions. Said objections shall be delivered to the Clerk of the said City Council, who shall indorse thereon the date of their reception by him; and such objections so indorsed shall be a bar to any further proceedings in relation to said work for a period of six months, unless the owners as aforesaid shall sooner petition for the same to be done: *provided*, that one half or more in width or in length of any street, lying and being between two main street crossings, have been already improved as aforesaid, said City Council may order the remainder improved, notwithstanding the objections of property owners fronting thereon. Before passing any ordinance for the construction of said improvements, plans, specifications, and careful estimates shall be furnished the said City Council by the City Marshal of said City of Oakland if required by them.

For information concerning, or rates of, Fire Insurance, apply or write to BABER & ROFF, Agents, Oakland.

SEC. 4. The owners of more than one half in frontage of lots and land fronting on any street, lane, alley, place, or court mentioned in section one of this Act, or their duly authorized agents may petition the said City Council to order any of the work mentioned in section two of this Act to be done, and the said City Council may order the work mentioned in said petition to be done after notice of their intention so to do has been published as provided in section three of this Act. No order or permission shall be given to grade, pave, plank, or macadamize any street, lane, alley, place, or court in the first instance, or any portion thereof, without extending or completing the same throughout the whole width of such street, lane, alley, or court.

SEC. 5. Before giving out any contracts by the City Council for doing any work authorized by section two of this Act, the City Council shall cause notice to be conspicuously posted on or near the Council room door of said Council, and also published for five days in some daily paper to be designated by said Council, inviting sealed proposals for the work contemplated. All proposals offered shall be delivered to the Clerk of said City Council, and said Council shall, in open session, open, examine, and publicly declare the same, and award the contract for said work, in their discretion, to the lowest responsible bidder: *provided*, said Council may reject any and all bids, should they deem it for the public good, and also the bid of any party who may have proved delinquent or unfaithful in any former contract with said city. All proposals shall be accompanied by a bond in the sum of one thousand dollars, signed by the bidder and by two sureties, who shall justify in the manner hereinafter provided, conditioned to pay to the said City of Oakland the full sum of one thousand dollars, as liquidated damages, if the bidder to whom the contract is awarded shall fail or neglect to enter into a contract as herein-after provided. It shall be the duty of the City Attorney to sue on said bonds in the name of said city, and to pay the amount recovered over to the treasurer of said city. The City Council shall have power to relieve the contractor from the performance of the conditions of said bond when good cause is shown therefor. All persons (owners included) who shall fail to enter into contracts, as herein provided, are hereby prohibited from bidding a second time for the same work. Notice of such awards shall be published for five days, in the same manner as hereinbefore provided for publication of proposals of such work. The owners of the major part of the frontage of lots and lands liable to be assessed for said work, shall not be required to present sealed proposals, but may, within said five days after first publication of notice of said award, elect to take said work, and enter into a written contract to do the whole work at the price at which the same may have been awarded. Should the said owners fail to commence the work within ten days after the first publication of the notice of said award, and prosecute the same with due diligence to completion, it shall be the duty of the City Marshal to enter into a contract with the original bidder to whom the con-

tract was awarded, and at the prices the same may have been awarded him ; but if such bidder neglects for fifteen days after the first publication of the notice of said award, to enter into the contract, then the City Council shall again publish, for said five days, and pursue the steps required by this section the same as in the first instance. If the owners who may have taken said contract do not complete the same within the time limited in the contract, or within such further time as the said City Council may give them, the said Marshal shall report such delinquency to the City Council, who may relet the unfinished portion of said work, after having pursued the formalities of this section as stated aforesaid. All such contractors shall, at the time of the execution of the contract, also execute a bond to the satisfaction of the Mayor of said city, with two or more sureties, payable to the City of Oakland, in such sums as the said Mayor shall deem adequate, conditioned for the faithful performance of the contract, and the sureties shall justify before any officer competent to administer an oath, in double the amount mentioned in said bond, over and above all statutory exemptions. Any person suffering damages by reason of the breach of said contract, may sue on such bond in his own name. It shall be the duty of the Marshall to collect from the contractors, before the contract is signed by him, the cost of publication of the notice required under the proceedings prescribed in this Act.—[Amendment, March 29, 1870.]

SEC. 6. The Marshal of said city is hereby authorized in his official capacity to make all written contracts and receive all bonds authorized by this Act, and to do any other act, either expressed or implied, that pertains to the Street Department under this Act, and the said Marshal shall fix the time for the commencement of the work under all contracts entered into by him, which work shall be prosecuted with due diligence from day to day thereafter to completion, and may extend the time so fixed from time to time under the direction of the City Council. The work provided for in section two of this Act must in all cases be done under the direction and to the satisfaction of the Marshal, and the materials used shall be such as are required by said Marshal; and all contracts made therefore must contain this condition and also express notice, that in no case, except where it is otherwise provided in this Act, will the city be liable for any portion of the expense, nor for any delinquency of persons or property assessed. The assessment and apportionment of the expenses of all such work in the mode herein provided shall be made by the said Marshal.

SEC. 7. *Subdivision One*—The expenses incurred for any work authorized by section two of this Act shall be assessed upon the lots and lands fronting thereon, except as hereinafter specifically provided ; each lot or portion of a lot being separately assessed in proportion to the frontage, at a rate per front foot sufficient to cover the total expenses of the work.

Subdivision Two—The expenses of all improvements, except such as are done by contractors under the provisions of section

thirteen of this Act, until the street crossings, lanes, alleys, places, or courts, are finally accepted as provided in section twenty of this Act, shall be assessed upon the lots and lands as provided in this section, according to the nature and character of the work ; (and after such acceptance, the expense of all work thereafter done thereon shall be paid by said city out of the Street Department Fund).

Subdivision Three—The expense of work done on main street crossings shall be assessed upon the four quarter blocks adjoining and cornering upon the crossing ; and each lot or part of a lot in such quarter blocks fronting on such main streets shall be separately assessed according to its proportion of frontage on the said main streets.

Subdivision Four—Where a main street terminates in another main street, the expenses of the work done on one half of the width of the street opposite the termination shall be assessed upon the lots in each of the two quarter blocks adjoining and cornering on the same, according to the frontage of such lots on said main streets, and the expense of the other half of the width of said street upon the lot or lots fronting on the latter half of the street opposite such termination.

Subdivision Five—Where any small or subdivision street crosses a main street, the expense of all work done on said crossing shall be assessed on all the lots or portions of lots half way on said small streets to the next crossing or intersection, or to the end of such small or subdivision street, if it does not meet another.

Subdivision Six—The expense of work done on small or subdivision street crossings shall be assessed upon the lots fronting upon such small streets, on each side thereof, in all directions, half way to the next street, place, or court, on either side, respectively, or to the end of such street, if it does not meet another.

Subdivision Seven—Where a small street, lane, alley, place, or court terminates in another street, lane, alley, place, or court, the expense of the work done on one half of the width of the street, lane, alley, place, or court, opposite the termination, shall be assessed upon the lot or lots fronting on such small street, or lane, alley, court, or place, so terminating, according to its frontage thereon, half way on each side, respectively, to the next street, lane, alley, place, or court, or to the end of such street, lane, alley, place, or court, if it does not meet another; and the other one half of the width upon the lots fronting such termination.

Subdivision Eighth—The expenses of all the aforesaid improvements on overflowed lands belonging to the city shall be defrayed by the city, but no contract for work shall be given out except to the lowest responsible bidder, after an observance of all the formalities required by this Act.

Subdivision Nine—Where any work mentioned in section two of this Act (sewers, manholes, cesspools, culverts, crosswalks, crossings, curbings, grading, curbing, piling, and capping, ex-

cepted) is done on one side of the center line of said streets, lanes, alleys, places, or courts, the lots or portions of the lots fronting on that side only shall be assessed to cover the expenses of said work, according to the provisions of this section.

Subdivision Ten—Section one of chapter three hundred and twenty-five of the laws of this State, entitled an Act amendatory of and supplementary to An Act to provide revenue for the support of the government of this State, approved April twenty-ninth, eighteen hundred and fifty-seven, approved April nineteenth, eighteen hundred and fifty-nine, shall not be applicable to the provisions of this section, but the property herein mentioned shall be subject to the provisions of this Act, and to be assessed for work done under the provisions of this section.

SEC. 8. After the contractor of any street work has fulfilled his contract to the satisfaction of the Marshal of the said city, or City Council on appeal, the Marshal shall make an assessment to cover the sum due for the work performed and specified in said contracts, (including incidental expenses, if any) in conformity with the provisions of the preceding section, according to the character of the work done, or if any direction and decision shall be given by said Council on appeal, then in conformity with such direction and decision, which assessment shall briefly refer to the contract, the work contracted for and performed, and shall show the amount to be paid therefor, together with the incidental expenses, if any, the rate per front foot assessed, the amount of each assessment, the name of the owner of each lot or portion of a lot, (if known to the Marshal), if unknown, the word "Unknown" shall be written opposite the number of the lot, and the amount assessed thereon, the number of each lot or portion of a lot assessed, and shall have attached thereto a diagram, exhibiting each street or street crossing, lane, alley, place, or court on which any work has been done, and showing the relative location of each distinct lot or portion of a lot to the work done, numbered to correspond with the numbers in the assessments, and showing the number of feet fronting assessed for said work contracted for and performed.

SEC. 9. To said assessment shall be attached a warrant, which shall be signed by the Marshal, and countersigned by the Mayor of said city, who, before countersigning it, shall examine the contract, the steps taken previous thereto, and the record of the assessments, and must be satisfied that the proceedings have been fair and legal. The said warrant shall be substantially in the following form :

FORM OF THE WARRANT.

"By virtue hereof, I [name of Marshal] Marshal of the City of Oakland, County of Alameda, and State of California, by virtue of the authority vested in me as said Marshal, do authorize and empower [name of contractor] [his or their] agents or assigns, to

demand and receive the several assessments upon the assessment and diagram hereto attached, and this shall be [his or their] warrant for the same.

"OAKLAND, [date], 186—.

"[Name of Marshal].

"Marshal of City of Oakland.

"Countersigned by [name of] Mayor."

Said warrant, assessment, and diagram shall be recorded in the office of said Marshal. When so recorded, the several amounts assessed shall be a lien upon the lands, lots, or portions of lots assessed, respectively, for the period of two years from the date of said recording, unless sooner discharged ; and from and after the date of said recording of any warrant, assessment, and diagram, all persons mentioned in section eleven of this Act shall be deemed to have notice of the contents of the record thereof. After said warrant, assessment, and diagram are recorded, the same shall be delivered to the contractor, or his agent or assigns, on demand, but not until after the payment to the said Marshal of the incidental expenses not previously paid by the contractor or his assigns ; and by virtue of said warrant, said contractor, or his agents or assigns, shall be authorized to demand and receive the amount of the several assessments made to cover the sum due for the work specified in such contracts and assessments.

SEC. 10. The contractor or his assigns, or some person in his or their behalf, shall call upon the persons assessed, or their agents, if they can conveniently be found, and demand payment of the amount assessed to each. If any payment be made, the contractor, his assigns, or some person in his or their behalf, shall receipt the same upon the assessment in presence of the person making such payment, and shall also give a separate receipt if demanded. Whenever the person so assessed or their agents cannot conveniently be found, or whenever the name of the owner of the lot is stated as "unknown" on the assessment, then the said contractor or his assigns, or some person in his or their behalf, shall publicly demand payment on the premises assessed. The warrant shall be returned to the Marshal within thirty days after its date, with a return endorsed thereon, signed by the contractor or his assigns, or some person in his or their behalf, verified upon oath, stating the nature and character of the demand, and whether any of the assessments remain unpaid, in whole or in part, and the amount thereof. Thereupon the Marshal shall record the return so made, in the margin of the record of the warrant and assessment, and also the original contract referred to therein; if it has not already been recorded, at full length, in a book to be kept for that purpose in his office, and shall sign the record. The said Marshal is authorized at any time to receive the amount due upon any assessment list and warrant issued by him, and give a good and sufficient discharge therefor; provided, that no such payment so made after suit has been commenced,

without the consent of the plaintiff in the action, shall operate as a complete discharge of the lien until the costs in the action shall be refunded to the plaintiff; and he may release any assessment upon the books of his office, on the production to him of the receipt of the party or his assigns, to whom the assessment and warrant were issued; and if any contractor shall fail to return his warrant within the time and in the form provided in this section, he shall thenceforth have no lien upon the property assessed; *provided*, however, that in case any warrant is lost, upon proof of such loss, a duplicate can be issued, upon which a return may be made, with the same effect as if the original had been so returned. After the return of the assessment and warrant as aforesaid, all amounts remaining due thereon shall draw interest at the rate of one per cent. per month, until paid.—
[Amendment, March 29, 1870.]

SEC. 11. The owners, whether named in the assessment or not, the contractor or his assigns, and all other persons directly interested in any work provided for in this Act or in the assessment, feeling aggrieved by any act or determination of the Marshal in relation thereto, or having or making any objection to the correctness or legality of the assessment or other act, determination or proceeding of the Marshal, shall, within thirty days after the date of the warrant, appeal to the City Council, as provided in this section, by briefly stating their objections in writing, and filing the same with the Clerk of said City Council. Notice of the time and place of the hearing, briefly referring to the work contracted to be done, or other subject of appeal, and to the acts, determinations or proceedings objected to or complained of, shall be published for five days. Upon such appeal, the said City Council may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the Marshal relative to said work; may confirm, set aside, alter, modify or correct the assessment in such manner as to them shall seem just, and require the work to be completed according to the directions of the City Council; and may instruct and direct the Marshal to correct the warrant, assessment or diagram in any particular, or to make and issue a new warrant, assessment, and diagram, to conform to the decisions of said City Council in relation thereto, at their option. All the decisions and determinations of said City Council, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to an appeal under the provisions of this section, as to all errors, informalities and irregularities which said City Council might have remedied and avoided; and no assessment shall be held invalid, except upon appeal to the City Council, as provided in this section, for any error, informality, or other defect in any of the proceedings prior to the assessment, or in the assessment itself, where notice of the intention of the City Council to order the work to be done, for which the assessment is made, has been actually published in a newspaper of said city for the length of time prescribed by law, before the passage of the

resolution ordering the work to be done.—[Amendment, March 29, 1870.]

Sec. 12. At any time after the period of thirty-five days from the day of the date of the warrant, as hereinbefore provided, or if any appeal is taken to the City Council, as is provided in section eleven of this Act, at any time after five days from the decision of said Council, or after the return of the warrant or assessment, after the same may have been corrected, altered, or modified, as provided in section eleven of this Act, (but not less than thirty-five days from the date of the warrant) the contractor or his assignee may sue, in his own name, the owner of the land, lots or portions of lots assessed, on the day of the date of the recording of the warrant, assessment and diagram, or on any day thereafter, during the continuance of the lien of said assessment, and recover the amount of any assessment remaining due and unpaid, with interest thereon, as hereinbefore provided. Suit may be brought in the District Court of the Third Judicial District, and on all sums less than three hundred dollars, in the Police Court of the City of Oakland. The said warrant, assessment, and diagram, with the affidavit of demand and non-payment, shall be prima facie evidence of such indebtedness, and the right of the plaintiff to recover in the action. The Court in which such suit shall be commenced shall have power to adjudge and decree a lien against the premises assessed, and to order such premises to be sold on execution, as in other cases of the sale of real estate by the process of said Courts; and on appeal, the appellate Court shall be vested with the same power to adjudge and decree a lien, and to order to be sold such premises, on execution or decree, as is conferred on the Court from which an appeal is taken. Such premises, if sold, may be redeemed as in other cases. In all suits now pending or hereafter to be brought, to recover street assessments, the proceedings therein shall be governed and regulated by the provisions of this Act, and also, when not in conflict herewith, by the Civil Practice Act of this State. This Act shall be liberally construed to effect the ends of justice.—[Amendment, March 29, 1870.]

Sec. 13. The Marshal of said city may require, at his option, by notice in writing to be delivered to them personally, or left on the premises, the owners, tenants, or occupants of lots or portions of lots liable to be assessed for work done under the provisions of this Act, to improve forthwith any of the work mentioned in section two of this Act, in front of the property of which he is the owner, tenant, or occupant, to the centre of the street, or otherwise, as the case may require, specifying in said notice what improvement is required. After the expiration of three days, the said Marshal shall be deemed to have acquired jurisdiction to contract for the doing of the work or improvements required by said notice. If such improvement be not commenced within three days after notice given as aforesaid, and diligently and without interruption prosecuted to completion, the said Marshal may enter into a contract with any suitable person applying to

make said improvements, at the expense of the owner, tenant, or occupant, at a reasonable price, to be determined by said Marshal, and such owner, tenant, or occupant shall be liable to pay the same. After the certificate referred to in section fourteen shall have been recorded, the sum contracted to be paid shall be a lien, the same as provided in section nine of this Act, and may be enforced in the same manner.

Sec. 14. If the expenses of the work and material for such improvements, after the completion thereof, be not paid to the contractor so employed, or his agent or assignee, on demand, the said contractor or his assigns shall have the right to sue the owner, tenant, or occupant, under the provisions of this Act, for the amount contracted to be paid; and the certificate of the Marshal that the work has been properly done, and that the charges for the same are reasonable and just, shall be *prima facie* evidence of the amount claimed for said work and materials, and of the right of the contractor to recover for the same in such action.

Sec. 15. In addition, and as cumulative to the remedies above given, the City Council shall have power, by resolution or ordinance, to prescribe the penalties that shall be incurred by any owner or person liable or neglecting or refusing to make improvements when required, as provided in section thirteen of this Act, which fines and penalties shall be recovered for the use of the city by prosecution in the name of The People of the State of California, in the court having jurisdiction thereof, may be applied, if deemed expedient by the said Council, in payment of the expenses of any such improvements, when not otherwise provided for.

Sec. 16. The person owning the fee, or the person in possession of lands, lots, or portions of lots, or buildings under claim, or exercising acts of ownership over the same, shall be regarded, treated, and deemed to be the "owner," (for the purpose of this law) according to the intent and meaning of that word as used in this Act. And in case of property leased, the possession of the tenant or lessee holding and occupying under such persons shall be deemed to be the possession of such owner, and the person so defined to be the owner shall be personally liable for the payment of any charge or assessment lawfully made or assessed upon said lands, lots, or portions of lots, by said Marshal, or contracted to be paid to the contractor, for improvements to cover the expense of any work done under and authorized by the provisions of this Act.

Sec. 17. Any tenant or lessee of the lands or lots liable may pay the amount assessed against the property of which he is the tenant or lessee under the provisions of this Act, or he may pay the price agreed on to be paid under the provision of section thirteen of this Act, either before or after suit brought, together with costs, to the contractor or his assigns, or he may redeem the property if sold on execution or decree, for the benefit of the owner, within the time prescribed by law, and deduct the amount so paid from the rents due and to become due from him,

and for any sum so paid beyond the rents due from him, he shall have a lien upon and may retain possession of the said lands and lots until the amount so paid and advanced be satisfied, with legal interest, from accruing rents or by payment by the owner.

SEC. 18. The records kept by the Marshal of said city in conformity with the provisions of this Act, and signed by him, shall have the same force and effect as other public records, and copies therefrom, duly certified, may be used in evidence with the same effect as the originals. The said records shall, during all office hours, be open to the inspection of any citizen wishing to examine them, free of charge.

SEC. 19. Notices in writing which are required to be given by the Marshal under the provisions of this Act may be served by any Constable, with the permission of the Marshal and the fact of such service shall be verified by the oath of the person making it, taken before the Marshal, (who, for that purpose, is hereby authorized to administer oaths) Mayor, or any Judge or Justice of the Peace, or such notices, whether verbal or written, may be delivered by the Marshal himself. The Marshal shall keep a record of the fact of giving such notices, when delivered by himself personally, and also, of the notices and proof of service, when delivered by any other person.

SEC. 20. When any street or portion of a street has been or shall hereafter be constructed to the satisfaction of the City Council and Marshal of said city, under such regulations as said Council shall adopt, the same shall be accepted by said Council, and thereafter shall be kept open and improved by the said city, and the expense thereof to be paid out of the Street Department Fund: *provided*, that the City Council shall not accept of any portion of a street less than the full width thereof and one block in length, or one entire crossing. The Marshal shall keep in his office a register of all accepted streets, the same to be indexed so that reference may be easily had thereto.

SEC. 21. The said Marshal shall keep a public office in some convenient place to be designated by the City Council, and such records as may be required by the provisions of this Act. He shall superintend and direct the cleaning of all the sewers in the public streets, and the expense of the same shall be paid out of the Street Department Fund.

SEC. 22. It shall be the duty of said Marshal to see that the laws, orders, and regulations, relating to the public streets and highways be fully carried into execution, and that the penalties therefor are rigidly enforced. It is required that he shall keep himself informed of the condition of all the public streets and highways, and also of all public buildings, parks, lots, and ground of the said city, as may be prescribed by the City Council; and should said Marshal fail to see the laws, orders, and regulations relative to the public streets and highways carried into execution, after notice from any citizen of a violation thereof, the said Marshal and his sureties shall be liable upon his official bond to any

person injured in his person or property in consequence of said official neglect.

SEC. 23. If in consequence of any graded street or public highway improved under the provisions of this Act being out of repair, and in condition to endanger persons, or horses or other animals, passing therein, any person while carefully using said street or public highway, and exercising ordinary care to avoid the danger, suffer damage to his person, or if any horses, animals, or other property, being lawfully ridden, driven, or conveyed through such street or public highway, be injured, lost, or destroyed, through any such defect therein, no recourse for damages thus suffered shall be had against the said City of Oakland; but if such defect in the street or public highway have existed for the period of twenty-four hours or more after notice to the said Marshal, then the person or persons on whom the law may have imposed the obligation to repair such defect in the street or public highway, and also the officer or officers through whose official negligence such defect remained unrepaired, shall be jointly and severally liable to the party injured for the damage sustained.

SEC. 24. The City Engineer shall be:

First—The proper officer to do the surveying and other work necessary to be done under sections one and two of this Act, and to survey, measure and estimate the work done under contracts for grading streets, and every certificate of work done by him, signed in his official character, shall be *prima facie* evidence in all the courts of this State of the truth of its contents; he shall also keep a record of all surveys made under the provision of section one of this Act, as in other cases. The Marshal shall measure and determine any other work which may be done under the provisions of this Act.

Second—The words “improve,” “improved,” and “improvements,” as used in this Act, shall include all necessary repairs of work all mentioned in section three of this Act, and also the reconstruction of all or any portion of said work.

Third—The term “main street,” as used in this Act, means such street or streets as bound a block; the term “street” shall include crossings.

Fourth—The word “block” shall mean the blocks which are known and designated as such on the map and books of the Assessor of said city.

Fifth—The term “incidental expense” shall mean the expense for work done by the City Engineer under the provisions of this Act; also, the expense of printing, advertising, and measuring the work done under contracts for grading, and the expense of superintendence of sewers, and of piling and capping.

Sixth—The publication of notices required by the provisions of this Act shall be published daily, (Sundays excepted,) in a newspaper to be designated by the City Council of said city.

SEC. 25. The Marshal shall appoint a person or persons suitable to take charge of and superintend the construction and improvement of each and every sewer, and of piling and capping,

whose duty it shall be to see that the contract made for the doing of said work is strictly fulfilled in every respect; and in case of any departure therefrom, to report the same to the Marshal. He shall be allowed for his time actually employed in the discharge of his duties such compensation as shall be just, but not to exceed five dollars per day. The sum to which the party so employed shall be entitled shall be deemed to be "incidental expenses," within the meaning of these words as defined in this Act; *provided*, that the owners of more than one half in frontage of the lots and lands fronting on the work proposed to be done under this section may, within forty-eight hours after the work has been commenced, appoint their own superintendent of the work, and provide for his compensation by private agreement.

SEC. 26. After a street shall have been paved, planked, or macadamized by authority of this Act, the City Council shall have power to levy a tax from time to time, as occasion may require, upon the property fronting upon said street, sufficient to keep the same in repair. Said tax shall be levied and collected at the time and in the manner prescribed for the levy and collection of city taxes, and the amount thus collected shall be set apart as a Street Department Fund, and appropriated to the repair of said streets, and shall not be used for any other purpose.

SEC. 27. The City Council of said city shall have power to issue and collect an annual tax license on draymen, cabmen, omnibus proprietors, expressmen, and other common carriers doing business in the city of Oakland, the proceeds of said licenses to be devoted to a Street Department Fund for keeping in repair the streets in said city. Said annual license not to be more than twelve dollars nor be less than eight dollars, for such persons so licensed.

SEC. 28. The City Council of the City of Oakland shall have full power and authority to grade or regrade, pave or repave, plank or replank, macadamize, pile, or repile, cap or recap, or otherwise improve Broadway Street in such manner and upon such terms as they may deem proper. To authorize such improvements of said street it shall not be necessary that any petition or petitions shall be presented to said Council, nor shall such improvements be stayed or prevented by any written or other remonstrance or objection, unless such Council deem proper.*

SEC. 29. This Act shall take effect and be in force from and after its passage.

* The Act of the Legislature approved December 29th, 1871, amends the road law of Alameda County, and provides new regulations for levying and collecting road taxes, but the City of Oakland is wholly excluded from the operation of the Act, so that hereafter the Supervisors cannot levy any road tax in Oakland at all. An application was made for a peremptory writ of mandate to compel the County Treasurer to pay to the Treasurer of the City of Oakland \$11,015.44, the amount due Oakland from the taxes for the fiscal year 1871-2. Judge McKee, of the Third District Court, decided that it was the duty of the County Treasurer to pay the money to the City, but he dismissed the application because no showing, based upon legal evidence, was made in behalf of the City to prove the amount due.

AN ACT TO AUTHORIZE THE COUNCIL OF THE CITY OF OAKLAND TO LAY OUT, OPEN, OR IMPROVE STREETS IN SAID CITY, APPROVED JANUARY 31, 1870. WITH THE AMENDMENT THERETO, APPROVED JANUARY 16, 1872.

*The People of the State of California,
represented in Senate and Assembly, do enact as follows:*

SECTION 1. Whenever a petition shall be presented to the Council of the City of Oakland, signed by at least three residents and freeholders of said city, each of whom shall be directly interested in the property to be affected thereby, asking for the laying out, opening, extending, straightening, or widening any street or highway in said city, it shall be the duty of the said Council to examine into said matter, and if, in the opinion of a majority of all the members elected to said Council, to be expressed by a resolution to be entered upon their minutes with the names of the members voting therefor, the benefits to arise from granting said petition, in whole or in part, will exceed the damages and expenses to be caused thereby, and the convenience of the public will thereby be promoted, they may by resolution direct the City Engineer to survey and make a map of the said proposed improvement and of the premises to be affected thereby, a copy of which resolution shall forthwith be transmitted by the Clerk of said Council to said City Engineer.

Sec. 2. It shall be the duty of the City Engineer, upon receiving such notice, to proceed and survey said proposed improvement, to make a map thereof, showing the location, boundaries, the amount of land necessary to be taken, and the names of the owners or possessors thereof, showing the portions owned or possessed by each, and to return the same to the Council within ten days after the receipt of said resolution by him, unless longer time shall be granted by said Council therefor.

Sec. 3. Upon receiving said map and return from the said Engineer, the said Council shall forthwith give notice of not less than five days, by publication in not less than two daily newspapers, if there be so many published in said city, of the time and place where they will hear all parties desiring to show cause against the said improvement. At the time and place designated in such notice, or at such subsequent time as the Council may adjourn to—but such adjournment shall not, in the aggregate, exceed seven days—the said Council shall proceed with such hearing.

Sec. 4. If no objections be made, or if, after hearing the objections thereto, the Council shall remain of the opinion that such improvement should be made, they shall elect, by ballot, three Commissioners, residents and property owners in said city, not interested, directly or indirectly, in the proposed improvement, or in the property to be affected thereby, to assess the damages and benefits to be caused by said improvement. Within two days thereafter, said Commissioners shall give notice of the time and place where they will proceed to examine the prop-

erty to be affected by such improvement, by an advertisement in two newspapers, if there be so many published in said city, such time to be not more than three days thereafter; at the time and place named, they shall proceed to examine the land and improvements to be affected by the proposed improvement, and shall first ascertain the amount of damages to be sustained; the names of the owners of the property to be damaged, and the amount to be paid to each of such owners therefor. They shall then assess upon the property to be benefited by such improvement a sum sufficient to pay the whole amount of said damages, and the fees and expenses of the said Commissioners, and shall apportion the same among the owners of the several parcels of property to be thus benefited, in proportion to the amount of benefits to accrue to each.* In making such estimate and apportionment, they shall take all pertinent testimony that may be offered them, and may examine any witnesses that they shall deem it necessary or advisable to call, and shall have authority to administer oaths to all persons testifying before them. Within twenty-one days after their appointment, unless further time be granted by the Council, they shall make a report to said Council of the assessments and awards so made by them, with the names and amounts of the persons damaged or benefited as aforesaid.

SEC. 5. Upon receiving such report, said Council may, if in their judgment the said report is legal, and the said assessment therein contained is in accordance with law, by ordinance, levy a tax† upon the several parcels of property reported as benefited by said improvement, for the amounts severally charged against each in said report, which tax shall be a lien upon the several parcels of property severally, and shall not be removed until said tax is paid. Immediately upon levying such tax the City Marshal shall serve a notice in writing upon each owner of the land so taxed, or his lawful agent; or in case such owner or agent cannot be found, to post such notice in a conspicuous

*A case was made by C. T. Jacobos and carried to the Supreme Court, September term, 1871, which set aside the report of the Commissioners, on the ground that they had not awarded the damages or assessed the benefits in the manner required by the Act. That Court very justly characterized the law as ambiguous; but taking the whole Act together, they held that it is necessary to first award to the parties whose property is taken for the street, or damaged by its opening, the amount of the damage, irrespective of any benefit that may accrue to them, and that the benefit must be separately assessed. In other words, that all the damages must be first ascertained and added together, then the benefits to each piece of property in the district affected ascertained, and all the benefits added together, and then the assessment that each is to pay will be that proportion of the total damage that the benefit in his particular piece of property bears to the whole of the benefits. To illustrate: If the total of the value of the land taken to open the street is \$10,000, and the property on both sides will be benefited \$2000, and A's particular lot will be benefited \$500, then A pays $\frac{500}{2000}$, or $\frac{1}{40}$ th of the \$10,000. The last Commission adopted the method of taking each piece of property separately, and if the damage exceeded the benefits, allowed the difference; and this method was adjudged to be erroneous by the Supreme Court.—COMPILER.

†At the September (1871) term of the County Court of Alameda Co., Judge Nye rendered a decision in the matter of the application of Geo. C. Potter, to compel the City Council to pass an ordinance levying a tax for the purpose of widening Broadway, as recommended by Commissioners duly appointed under the law. The Court held that the acts of the Council, after the appointment of Commissioners, were ministerial, and that the parties to whom damages might be awarded could compel the Council by *mandamus* to pass an ordinance levying the tax recommended. A writ was accordingly issued and served, but from other reasons, the parties in interest did not insist upon its enforcement.—COMPILER.

place upon the land and premises so taxed, which notice shall contain the name of the owner (if known), a brief description of the lands taxed and the amount of tax levied, and that the payment of the said tax is demanded by the City Treasurer of the City of Oakland within ten days from the service of such notice. At the expiration of ten days from the time of service on each of said persons and property so taxed as aforesaid, the said Council shall issue to the City Marshal a warrant, to be signed by their President and Clerk, under the seal of the city, commanding him to levy and collect all of the said tax that shall be then unpaid, with his fees for collection from the property upon which the same is a lien as aforesaid, and shall thereupon deliver the same to said Marshal. (*Amendment*, January 16, 1872.)

SEC. 6. Upon receiving said warrant, said Marshal shall proceed to collect so much of said tax as is unpaid, by levy upon and sale of the several portions of property upon which the said unpaid tax is a lien, in the same manner and with the same authority as on sales on execution by Sheriffs, and shall return said warrant, with his doings thereon, within thirty days after the receipt thereof by him. If for any reason the whole amount thereof shall not be collected, said Council may issue, with like effect, a subsequent warrant or warrants until all be collected.

SEC. 7. As soon as money enough for that purpose is received from said tax, said Council shall direct the City Marshal to pay or tender to each party to whom damages have been awarded, the sums severally due to them, and thereupon to proceed forthwith and open said street or other improvement; and the same shall thereupon be deemed open to public use, for the purpose and to the extent in the original ordinance prescribed. If any person or party entitled to damages cannot be found by said Marshal, he shall deposit the amount due to them in the city treasury, as a special deposit, subject to their order, and the same shall be deemed a sufficient payment under this Act. The money so deposited shall not be drawn or used for any other purpose whatever.

SEC. 8. All moneys collected under this Act shall be paid into the city treasury as a special fund, for the purposes for which they were collected, and shall not be drawn out or used for any other purpose whatever.

SEC. 9. The City Engineer and the Commissioners to be appointed, as herein prescribed, shall each have the right to go in or upon any property for the purpose of making the survey and examinations above mentioned, or for any other purpose necessary in the discharge of their duties under this Act. Said Commissioners shall each be entitled to ten dollars for the first day, and two dollars for each subsequent day devoted to their duties as such Commissioners, and they shall not receive any other fees or compensation for such services.

SEC. 10. All Acts and parts of Acts in conflict herewith, so far as they conflict herewith, are hereby repealed.

SEC. 11. This Act shall take effect immediately.

CHURCHES.

Christ Church (Episcopal).

Location, corner of Oak Street and Santa Clara Avenue. Rev. G. W. Mayer, Minister in charge; residence, San Francisco.

The first efforts to establish this church were made in the Fall of 1867 when, through the exertions of Mr. Thomas A. Smith, who at that time was vestryman in the Church of the Advent,

Brooklyn, a small congregation was brought together, the Rev. Daniel Wills of the Brooklyn Parish officiating. The first services, also the first communion, first confirmation, first baptism, and first marriage ceremonies took place at the residence of Mr. Smith. Subsequently the members of the Methodist Church kindly offered the use of their edifice where services were held until a room was secured in Bowen's Building. Soon after the congregation again removed to a hall built by Mr. Smith where they worshiped until their present church edifice was completed.

In 1870 an organization was effected and name given to the Parish, and at the same time the following-named gentlemen were elected officers: W. N. Meek, Senior Warden; Eustace Trenor, Junior Warden; R. H. Magill, Thomas A. Smith, and C. H. Dickey, Vestrymen. On account of not filing a certificate the first permanent organization was not effected until January 14, 1871. About this time the Rev. Sidney Wilbur was appointed Rector who continued to officiate until July, 1873.

The church edifice was completed in September, 1873. It is a wooden structure, in the Gothic style of architecture, about twenty-six feet front by sixty-five feet deep, and cost, including furniture, \$3,500. The lot upon which it stands was donated to the congregation by Mr. Thomas A. Smith. Services are held every Sunday at eleven o'clock A.M. Seats free.

The Sunday School connected with the church was organized in 1868. There are three teachers and twenty scholars. The library contains two hundred volumes. Meets at ten o'clock A.M. Superintendent, Thomas A. Smith.

Church officers.—Thomas A. Smith, Senior Warden; R. F. Fletcher, Junior Warden; B. F. Norton, M. G. Cobb, and A. S. Cheminant, Vestrymen.

St. Joseph's (Roman Catholic).

Location, corner of Santa Clara Avenue and Oak Street. Rev. William Gleeson, Pastor; residence, East Oakland. The lot, owned by this Parish, is fifty by one hundred and seventy-five feet, and cost \$600. A church edifice has been erected thereon during the present year at a cost of \$1,700. The congregation numbers about seventy.

Mass every Sunday at nine o'clock A.M. The Sunday School connected with the church numbers about thirty scholars. Meets at three o'clock P.M. Superintendent, Rev. William Gleeson.

First Presbyterian.

Location, corner of Central Avenue and Versailles Street. Rev. Edward Graham, Minister in charge; residence, south side of Santa Clara Avenue near Park Street.

This society was organized in February, 1865, and placed under the care of the Presbytery of San José, and in connection with the General Assembly of the Presbyterian Church. In June,

1866, the Rev. F. S. Nash was invited to preach for one year, and in March, 1867, a call was extended to the Rev. Mr. Nash to be installed permanent Pastor. The first Trustees elected in 1867 were A. M. Crane, Henry Robinson, S. A. Hastings, Henry Haile, and John Wiggin.

The present church edifice was erected in 1867 at a cost of \$4,500. Seating capacity, about three hundred. Religious services have been regularly held by the society from its organization to the present time.

The Sunday School connected with the church has been conducted regularly since 1867. Average attendance, teachers and scholars, sixty. The library contains about three hundred volumes. Meets each Sabbath at twelve and a half o'clock.

Church officers.—S. A. Hastings and J. W. McKee, Elders; John Wiggin, Deacon; Henry Robinson, S. A. Hastings, A. A. Cohen, and J. W. McKee, Trustees.

Methodist Episcopal.

Location, corner Park Street and Central Avenue. Rev. William Hulbert, Pastor; residence, Santa Clara Avenue near Park Street.

This church was organized early in 1853. The present church building was erected in 1854 on a lot donated by the Rev. William Taylor, at a cost of \$5,000, and dedicated May 20, 1854. In 1871 the building was moved to its present location at an expense, including the cost of the lot, of \$1,600. The first Pastor was the Rev. David Deal, who officiated for the years 1854 and 1855, when he was succeeded by his brother, Rev. W. Grove Deal, who continued two years. Since that time, and up to the date of the installation of the present Pastor in 1870, several clergymen have discharged the duties of Pastor, among whom may be named the Rev. Drs. Alfred Higbie (1858), W. Grove Deal (1859), E. W. Kirkham (1860), C. V. Anthony (1861), W. Gafney (1862 and 1863), C. E. Rich (1864-1866), R. H. Daniels (1867 and 1868), and J. W. Walters (1869). ALAMEDA ENCINAL.

The Alameda *Encinal* was commenced on the 14th of September, 1869, by Mr. F. Hess, of the San Francisco *Demokrat*, a resident of Alameda, more to enliven the regular travelers over the Alameda Ferry, than with a view to establishing a permanent newspaper. The first five numbers were printed in San Francisco, and brought over to Alameda by Mr. Hess. It was then purchased by Mr. Fred. K. Krauth, its present proprietor, who saw in it the nucleus of a permanent institution if conducted discreetly and economically, and who brought to Alameda press, type, and all the paraphernalia of a printing office. His anticipations have been fully realized. The paper is now in its fifth year, and has a reputation throughout the State and in the Atlantic States, of which its proprietor may well feel proud. It is eminently high-toned, and admits into its columns no matter, whether advertising or reading, that may not be read by any man, woman, or child in the land. This is its pride. As an advertising medium for first-class family patronage, it has no superior in the State.

TOWN CHARTER.

AN ACT TO INCORPORATE THE TOWN OF ALAMEDA, APPROVED MARCH
7, 1872.

*The People of the State of California,
represented in Senate and Assembly, do enact as follows:*

SECTION 1. The People of the Township of Alameda, in the County of Alameda, are hereby constituted a municipal corporation, by the name of the town of Alameda, and the boundaries of said Town shall be the same as now form the said Township of Alameda.

SEC. 2. The government of said town shall be vested in a Board of five Trustees, and Assessor, who may act also as Superintendent of Streets, and a Treasurer, who may also act as Clerk of said Board of Trustees. The Justices of the Peace and the Constables elected in and for said township, from time to time, shall perform their respective duties in said town, and shall respectively give effect to all ordinances that may be enacted by the said Board of Trustees, in pursuance of the power given to said Board by this Act.

SEC. 3. Said Trustees, Assessor, and Treasurer shall be elected by the qualified electors of said town on the first Monday in May, A.D. 1872, and their successors on the first Monday in May of each succeeding year, at an election to be held for that purpose.

SEC. 4. The Board of Trustees shall assemble within ten days after their election, and shall choose a President from their number. They shall fix the time and place of holding stated meetings, but they may be convened at any time by the President, by a written notice delivered to each member. All meetings shall be public. A majority of the Trustees shall constitute a quorum to do business, but no ordinance shall have legal force unless it shall receive a majority vote of all members elected. In case of failure of a member of the Board, or of any officer elected under this Act, to qualify, a new election shall be ordered by said Board to fill the vacancy, upon giving twenty days' notice, either by posting or by advertisement in a paper published in said town. In case of death or resignation of any member of said Board, or officer of said town, such vacancy may be filled by the other members of said Board at their regular meeting. They shall keep a journal of all their proceedings: provided, that the election to be held on the first Monday of May, A.D. 1872, shall be ordered by the Board of Supervisors of Alameda County, in the same manner as new elections are ordered to be held under this section for the election of officers to fill vacancies. The Board of Supervisors shall appoint polling places and officers of election, which officers of election shall canvass the votes and give certificates to the candidates for the several offices which shall have received the greatest number of votes.

SEC. 5. The Board of Trustees shall have power:

First—To declare any streets now open, or such as may hereafter be opened by any owner of land within said town, to be public streets.

Second—To establish the grade of said streets; to provide for the improvement or repair of the same in the manner hereinafter provided, and for the erection of sidewalks, and to provide for watering such streets as shall have been graded, macadamized, or improved.

Third—To provide for the prevention and summary removal of all nuisances and all occupations detrimental to the public health, comfort, or safety; to suppress all occupations, houses, places, and exhibitions which are against good morals, or contrary to public order and decency; to prevent the appearance of any person on any highway or public place in said town in a state of intoxication; to prevent the discharge of firearms, pistols, or canons on any wharves or streets of said town, or upon private property therem, without consent of the owner thereof, and to prevent any noise, disorder, or tumult to the disturbance of the public peace.

Fourth—To levy and collect annually a tax, not to exceed one per cent. on the assessment valuation of all property, both real and personal, within said town.

Fifth—To impose and collect a road poll tax, not exceeding two dollars per annum, on each male inhabitant between the ages of twenty-one and sixty, and no other road poll tax shall be collected within said Town of Alameda.

Sixth—To license, tax, and regulate all lawful trades and occupations.

Seventh—To establish a public pound and a Pound Keeper, and prescribe his duties, and provide for the proper care and disposition of all animals impounded: *provided*, that the Pound Keeper shall receive for his services and care of such animals only such fees as by ordinance he may be allowed to collect from the owners or proceeds of said animals.

Eighth—To pass all ordinances necessary to carry into effect the powers herein granted. The style of such ordinances shall be “The Trustees of the Town of Alameda do ordain as follows:” To elect a clerk of said Board, who shall perform such duties as may be by them required, and to pay him out of the treasury of said town a compensation not to exceed fifty dollars per month.

SEC. 6. If at any time the owners of one half in frontage of lands fronting on any street, between two given points on said street, shall petition the Board of Trustees to order to be graded, macadamized, or otherwise improved such street between said points, or for the construction of sidewalks on such street between said points, then it shall be the duty of said Board to cause to be drawn up plans and specifications of the character of the improvement to be made, or the sidewalk to be constructed on such street, and shall order the same, as petitioned for, to be

made in accordance with the said plans and specifications, and shall assess three fourths of the cost of improvement of such street, or the construction of such sidewalk, upon all the property fronting upon such street, between said points; the other fourth to be paid out of the town treasury: *provided*, that except with the reservation hereinafter mentioned, no such liability shall be incurred by said Trustees unless the money for such purpose shall be in said treasury. The assessment provided for in this section shall be levied upon the property fronting on the portion of the street to be improved or on which the sidewalks may be erected, at such rate per front foot as may be necessary to furnish three fourths of the cost of said work; and such assessment shall constitute a lien upon such real estate until the same is paid. When any street, to be improved as above provided, shall cross any other street, then the expense of the improvement on such crossing shall be paid by the Board of Trustees from the town treasury. All street work to be done under the provisions of this Act shall be let to the lowest responsible bidder; and the Board of Trustees, after adopting the plans and specifications of the work as above provided, shall advertise, for a period of not less than ten days, for proposals for doing such work, and may reject any or all bids, if they shall deem the price required to be unreasonable, and may again advertise the said work, until a satisfactory bid shall be obtained. A good and sufficient bond shall in all cases be required from the contractors for the faithful performance of the work. When any street work to be done under the provisions of this Act shall have been ordered by said Board, they shall direct the Assessor to make a full and complete list of the property to be charged with the expense thereof, and the names of the owners of each lot, arranged alphabetically, when the same are known, specifying the number of front feet in each lot so charged, and the rate per front foot that such lot has been assessed, and shall carry out the full amount to be charged against each separate lot or parcel of land into a separate column, and the total shall be added up at the foot thereof. Such lists shall be completed and returned to said Board of Trustees within twenty days, unless the Board shall, by order, grant further time; and when the said lists shall have been approved by said Board they shall cause the same to be delivered to the Treasurer. When the work so ordered shall have been completed and accepted by said Board, they shall direct the Treasurer to proceed and collect the several amounts assessed. The Treasurer shall thereupon give notice to parties interested, by publication in any newspaper published in said town, or by posting notices in three public places in said town, requiring payment to be made within thirty days from the first publication or the first posting of such notices, and when any payment is made he shall write the word "paid" against such amount. On the completion of thirty days he shall declare all assessments unpaid to be delinquent, by an entry in writing at the foot of the roll, and shall then add five per cent. to each

sum so delinquent. He shall then proceed to advertise and collect the various amounts so delinquent, including the cost of advertising, which shall not exceed one dollar for each lot or parcel of land from the sale of the property in the same manner as is or may be by law provided for the collection of State and county taxes in the County of Alameda; the same powers being hereby conferred upon said Treasurer as is or may be given to tax collectors for the said county.

SEC. 7. The annual tax authorized by this Act to be levied by the Board of Trustees shall be levied, assessed, and collected at the same time and in the same manner as is or may be by law provided for the levying and collecting State and county taxes within the County of Alameda, the Treasurer being hereby vested with the same powers to make collections for taxes as is or shall be conferred upon tax collectors for the collection of State and county taxes within said county.

SEC. 8. It shall be the duty of the Assessor, within the time fixed by law for the assessment of property in the County of Alameda, for State and county purposes, to make a true list of all taxable property within the limits of said town; which list, certified by him, shall, on the first Monday in August, be presented by him to the Board of Trustees for equalization.

SEC. 9. The Board of Trustees shall meet on the third Monday in August as a Board of Equalization, and shall continue their sessions from time to time, not exceeding twenty days, as they may deem necessary. They shall hear and determine all complaints respecting the valuation of property, and may change or modify the same as a majority of the whole Board shall deem just and proper.

SEC. 10. The Assessor and Treasurer, before entering upon their duties, shall take the oath of office as prescribed by law, and shall severally execute a bond payable to the people of the Town of Alameda for the faithful performance of such duties as may be required by law, in such penalty as the Board of Trustees may require: *provided*, that the bond of the Assessor shall not be less than five thousand dollars, and that of the Treasurer not less than twenty thousand dollars, and the sureties on such bond may be required to justify. The bond shall be approved by the Board of Trustees; and should at any time any bond so given or approved become insufficient, the Board of Trustees may require a further bond to be filed within ten days, and in case of failure so to do, may remove or suspend the officer, and any such vacancy shall be filled by said Board.

SEC. 11. The Town Treasurer shall collect all taxes, dues, licenses, and moneys levied for street improvements, and shall receive and safely keep all the moneys that shall come into the town treasury, and pay out the same only on the order of the Board of Trustees, countersigned by the President, and take receipt therefor, and shall make out a monthly statement of his receipts and payments, verified by his oath, and file the same with the Board of Trustees.

For Fire Insurance in strong Companies, apply to BABER & ROFF, Agents, Broadway and Tenth, Oakland.

SEC. 12. The Trustees of said town shall receive no compensation for their services. The Treasurer and Assessor, for all the duties that may be required of them, shall receive such compensation as may be fixed by the Board of Trustees: *provided*, that allowed to the Treasurer shall not exceed one thousand dollars per annum, and that to the Assessor shall not exceed six hundred dollars per annum.

SEC. 13. Neither the Board of Trustees nor any officer of the Town of Alameda shall have power to contract any debt against said town except the money shall be in the treasury to pay the same, and no person or property therein shall ever be liable to be assessed or be subject to taxation in any form to provide for the payment of any debt hereafter contracted, or any claim against said town: *provided*, that the Board of Trustees may, during the first year after the passage of this Act, incur liabilities, for the purpose of improving streets or watering such streets as shall have been improved, or the construction of sidewalks, not exceeding ten thousand dollars, which liability, so incurred, shall be paid from the first money coming into the town treasury.

SEC. 14. There shall be elected six School Directors, who together shall constitute the Board of Education. The term of office of each School Director shall be three years, except as hereinafter stated; and after the first election, two shall be elected every year. At the first election six shall be elected, two for one year, two for two years, and two for full term. In case of vacancy in the office of School Director, the Board of Education shall choose a person to serve until the next election, when, if the term does not then expire, a person shall be elected to serve the remainder of the term. The said School Directors shall receive no compensation for their services.

SEC. 15. Said Board shall meet on the third Monday of May in each year, and then, or as soon as convenient thereafter, choose one of its number as President and another as President *pro tem*. Its regular meetings thereafter shall be held on the first, second, and third Monday of every month, and at such other times as the President may by notice convene them, and at such hours as may be prescribed by rule. Such special meetings may be called by a written notice, delivered personally to each member of the Board. Four members shall constitute a quorum. No business shall be transacted without the concurrence of four members; but a majority of members present at any meeting may adjourn from time to time. All meetings shall be public, and full records of the proceedings of the Board shall be kept. The Town Clerk shall be *ex officio* Clerk of the Board of Education, for which service he may be allowed a sum not to exceed twenty-five dollars per month.

SEC. 16. On or before the first day of February of each year the Board of Education shall present to the Board of Trustees an estimate of the total amount of money required for school purposes for the ensuing year, with an estimate of the amount to be received from the State and county, and, at the close of

each year, it shall cause to be made and presented to the Board of Trustees a full report of all matters pertaining to the income, expenditures, condition, and progress of the schools during the year. The Board of Education may act in the matter of the purchase or sale of lands, and the erection of school-houses without the consent or direction of the Board of Supervisors of the County of Alameda; but no land or building shall be purchased or sold, and no building shall be erected without the consent and approval of the Board of Trustees.

SEC. 17. The President of Board of Education shall preside at all meetings thereof, and shall report to said Board at the close of every school year, and, whenever required, full information concerning school matters. He shall visit and examine every school in the town at least once a month, and shall observe and cause to be observed, all rules and regulations established by said Board. In case of the absence of the President, his duties shall be discharged by the President *pro tem.*

SEC. 18. The Board of Trustees shall include in the annual levy of taxes a tax for school purposes, which shall not exceed twenty cents on each one hundred dollars of valuation. All sums collected for school purposes, and all fines collected in the town, shall constitute the school fund. The school fund shall be kept separate from the other funds.

SEC. 19. All moneys received by the Treasurer of the County of Alameda on account of the road, bridge, or school fund of the Township of Alameda, or any district therein, and all sums received into the county treasury which may be apportioned to said township, or any district therein, shall be paid to the Treasurer of said town by the Treasurer of said county as soon as received, or as soon as the apportionment shall be made, when apportionment is necessary.

SEC. 20. The school fund shall be kept by the town treasurer, and paid out by him on the order of the President of the Board of Education, countersigned by the Clerk of said Board. No demands shall be paid out of the school fund unless the same have been presented to and allowed by said Board of Education.

SEC. 21. All Acts, or parts of Acts, so far as they conflict with the provisions of this Act, are hereby repealed.

SEC. 22. This Act shall take effect and be in force from and after its passage.
